Legal type of the buyer: Regional authority

Activity of the contracting authority: General public services

2. Procedure**2.1. Procedure**

Title: (2025-114) Engineering services roads, water and sewage, framework agreement.

Description: The competition is for the provision of engineering services for roads, water and sewage, framework agreement Øvre Romerike Innkjøpssamarbeid (ØRIK) is a binding cooperation between Eidsvoll, Gjerdrum, Hurdal, Nannestad, Nes and Ullensaker municipalities. Through ØRIK, these municipalities shall, where practically possible, seek cooperation when entering into procurement agreements for goods and services. The procurement's value is estimated to: NOK 10,000,000 - NOK 50,000,000 excluding VAT per annum. The maximum value for the entire contract period, including any options and expected price rise: NOK 250,000,000 excluding VAT. The need is uncertain. The volume can vary both up and down and the contract period will depend on, among other things, the contracting authority's needs, activities, budgetary situations and other framework factors. This procurement is considered to have an immaterial impact on climate and environment, cf. the Regulations §7-9, fifth paragraph. The justification for this is that the procurement concerns consultancy services/consultancy services where the contracting authority is unable to influence climate and environmental impact, as the requirements and criteria that are directed at these elements will not have sufficient connection to the delivery. Cf. DFØ's environment supervisor. See the procurement documents for further information.
