The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.16. Further information, mediation and review

Review organisation: Indre og Østre Finnmark Tingrett

6. Results

Direct award

:

Justification for direct award: Partial replacement or extension of existing supplies or installations by the original supplier ordered under the strict conditions stated in the Directive
Other justification: The Hospital Ålesund wants the same type of washer decontaminators that have already been purchased so that the machinery is uniform. The machines shall use the same return channel for washing inserts and the channel shall also be reused in the new building. The new machines must therefore be compatible with the existing machines. The sterile central shall set up a work flow where all stakes shall fit into all machines, as well as be compatible with input tables (trolleys) on both the reindeer and urein sides. The department does not have physical space for double sets in case of compatibility between different machines. In addition, the department sees the advantage of servicing of the machinery connected to only one supplier, as it is believed that this will be both time and cost saving as minor administration of the equipment is required.

6.1. Result lot identifier: LOT-0000

6.1.2. Information about winners

Winner:

Official name: Ken Hygiene AS

Tender:

Tender identifier: Vaskedekontaminatorer Ålesund AIO

Identifier of lot or group of lots: LOT-0000

The tender was ranked: no
