no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- The works, supplies or services can be provided only by a particular economic operator for the following reason:

- absence of competition for technical reasons

Explanation:

In the context of the global definition of cities, urban and rural areas, REGIO wants to demonstrate that this classification captures significant variation within many countries in the world. REGIO also wants to show that the middle category (towns&suburbs) often have an indicator value that is in between the value of cities and of rural areas.

To do this, a large survey with geo-coded micro data is needed with social and economic indicators which are likely to vary by Degree of Urbanisation. The Gallup WordPoll is the only survey in the world that has geo-coded data for 111 countries with a large, annual sample. It is also the only global survey with a significant number of social and economic indicators which have been shown to vary by Degree of Urbanisation.

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information
