**Section II: Object**

**II.1. Scope of the procurement**

**II.1.1. Title**

Astral Mass Spectrometer to the Proteomics Research Infrastructure (PRI)

**II.1.2. Main CPV code**

38433100 Mass spectrometer

**II.1.3. Type of contract**

Supplies

**II.1.4. Short description**

Proteomics Research Infrastructure (PRI) is a state-of-the-art mass spectrometry (MS)-based proteomics facility.

Founded on 1 July 2020, the new facility provides coordinated, proprietary client access to forerunner proteomic

technology, exceptional technical assistance, and streamlined bioinformatic data analysis for the local research

community. PRI is funded by the Novo Nordisk Foundation (NNF) and linked to the NNF Center for Protein

Research at the University of Copenhagen.

#### **II.1.6. Information about lots**

This contract is divided into lots: no

#### **II.1.7. Total value of the procurement**

Value excluding VAT: 16 354 173,00 DKK

### **II.2. Description**

#### **II.2.3. Place of performance**

NUTS code: DK01 Hovedstaden

#### **II.2.4. Description of the procurement**

The purchase is to add an additional instrument to the already existing installation, in the research facility at the University of Copenhagen. The procurement is to support the application in research and development, in basic research and applied research in proteomics.

This notice is sent in continuation of the University of Copenhagen's voluntary ex ante transparency notice no. [2023/S 168-525785](#) where University of Copenhagen published its intention to enter into the contract with Thermo Fisher Scientific. After the expiry of 10 calendar days calculated from the day after the date where the voluntary ex ante transparency notice was published, see section 4(1), para 2, of the Danish Act on the Complaints Board for Public Procurement, the University of Copenhagen has entered into the contract with Thermo Fisher Scientific.

#### **II.2.5. Award criteria**

Price

#### **II.2.11. Information about options**

Options: no

#### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds: no

#### **II.2.14. Additional information**

Regarding section II.2.5) and V.2.2) it is noted that this procurement has been subject to a negotiated procedure without prior publication. Reference is made to the reasoning in section IV.1.1) and the voluntary ex ante transparency notice referred in section IV.2.1). Therefore, only one tender was received.

## **Section IV: Procedure**

---

### **IV.1. Description**

#### **IV.1.1. Type of procedure**

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
  - absence of competition for technical reasons

Explanation:

The new Astral instrument is a novel MS system with unique characteristics tailored to excel in a broad range of proteomics experiments. No other provider offers similar equipment capable of High-Resolution, Accurate-Mass

(HRAM) measurements of comparable high sensitivity, speed, and dynamic range in LC-MS/MS experiment. The increased performance is due to a novel hardware architecture combining high-selectivity quadrupole mass

filter, Orbitrap technology and the novel Astral technology. In this unique configuration, the Orbitrap provides high dynamic range HRAM full MS scans, the quadrupole mass filter allows for efficient precursor selection,

while the new Astral analyzer provides fast (up to 200 Hz) and sensitive high dynamic range HRAM MS/MS scans.

Elevating HRAM measurements' sensitivity, speed, and dynamic range is crucial for PRI's proteomics services, especially as they prepare to analyze large clinical sample cohorts. The precision required for comprehensive analysis aligns with the imminent challenge of measuring significant sample sets, underscoring the necessity for advanced HRAM capabilities.

The equipment provides full integration into existing work routines, as it adds on to PRI's existing Orbitrap mass spectrometers. A change of supplier will therefore require changes to integrated software systems, which would be very resource intensive.

#### **IV.1.3. Information about a framework agreement or a dynamic purchasing system**

#### **IV.1.8. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

#### **IV.2. Administrative information**

##### **IV.2.1. Previous publication concerning this procedure**

Notice number in the OJ S: [2023/S 168-525785](#)

##### **IV.2.8. Information about termination of dynamic purchasing system**

##### **IV.2.9. Information about termination of call for competition in the form of a prior information notice**

### **Section V: Award of contract**

---

A contract/lot is awarded: yes

#### **V.2. Award of contract**

##### **V.2.1. Date of conclusion of the contract**

18/09/2023

##### **V.2.2. Information about tenders**

Number of tenders received: 1

The contract has been awarded to a group of economic operators: no

##### **V.2.3. Name and address of the contractor**

Official name: Thermo Fisher Scientific

National registration number: 28314388

Postal address: Gydevang 33

Town: Allerød  
NUTS code: DK013 Nordsjælland  
Postal code: 3450  
Country: Denmark  
The contractor is an SME: no

**V.2.4. Information on value of the contract/lot**

Total value of the contract/lot: 16 354 173,00 DKK

**V.2.5. Information about subcontracting**

**Section VI: Complementary information**

---

**VI.3. Additional information**

**VI.4. Procedures for review**

**VI.4.1. Review body**

Official name: The Danish Complaints Board For Public Procurement

**VI.4.3. Review procedure**

Precise information on deadline(s) for review procedures:  
Pursuant to the Danish Act on the Complaints Board for Public Procurement, etc. (lov om Klagenævnet for Udbud m.v.) (the Act is available (in Danish) at [www.retsinformation.dk](http://www.retsinformation.dk)), the following deadlines apply to the lodging of complaints:  
Pursuant to section 7(3) of the Act, in the case where the contracting authority has followed the procedure in section 4, complaints regarding that a contracting authority in conflict with Directive 2014/24/EU has entered into a contract without prior publication of a contract notice in the Official Journal of the European Union, must be filed with Danish Complaints Board for Public Procurement within 30 calendar days calculated from the day after the day when the contracting entity has published a notice (i.e. this contract award notice) in the Official Journal of the European Union regarding that the contracting entity has entered into a contract, provided that the notice includes the reasons for the contracting entity's decision to award the contract without prior publication of a contract notice in the Official Journal of the European Union.  
Not later than at the time of lodging a complaint with the Danish Complaints Board for Public Procurement, the complainant must notify the contracting entity in writing that a complaint has been lodged with the Danish Complaints Board for Public Procurement and whether the appeal was lodged during the standstill period, see section 6(4) of the Act. In cases where the complaint was not lodged within the standstill period, the complainant must furthermore indicate whether a suspensory effect of the complaint has been requested, see section 12(1) of the Act.  
The e-mail address of the Complaints Board for Public Procurement is set out in section VI.4.1. The Complaints Board's own complaints procedure is available at <https://naevneneshus.dk/start-din-klage/klagenaevnet-for-udbud/vejledning/>
