no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Requirement: Tenderers must be registered in a company register, professional register or a trade register in the country where the tenderer is established. Documentation requirement:

Norwegian companies: eBevis or a company registration certificate.

Foreign companies: Verification showing that the tenderer is registered in a company register, professional register or a commerce register in the country where the tenderer is established.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Requirement: Tenderers must have sufficient economic and financial capacity to fulfil the contract. Documentation requirement: A credit rating based on the most recent fiscal figures.

The rating shall be carried out by a credit rating agency with a licence to provide this business. If a tenderer has valid reasons for not being able to provide the documentation requested by the contracting authority, the tenderer can document his economic and financial capacity by presenting other documents considered suitable by the contracting authority.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Requirement: Tenderers must have experience from similar assignments. Documentation requirement: Tenderers must document their experience by describing up to four of the most relevant assignments for each role (total maximum 8) undertaken in the last 6 years.

Tenderers are to use the contracting authority's attached 'template for reference projects', and the description of similar assignments must include the following:

- value of the assignment
- the extent to which the assignment included alteration/renovation, listed/protected buildings, buildings in use, technical projects
- what contract form was used
- which project phases the assignment covered, (cf. the government's project model)
- what work tasks were carried out in the project

The qualification assessment will be based on a total evaluation of the above mentioned points in light of the tender documentation.

Requirement: Tenderers must have had an average annual workforce that includes a minimum of four -4- project managers and four -4- engineering design managers (senior resources) in the last three years. Documentation requirement: A description of the tenderer's average annual workforce in the last three years.

Requirement: Tenderers must have environmental management certification, in the form of EMAS, ISO 14001, Eco-lighthouse or equivalent.

Documentation requirement:

- Certificate from Eco-Lighthouse, EMAS or ISO14001
- Other certificates issued by organs in

other EEA organs, provided that the tenderer can document that these are similar to EMAS or ISO 14001.

- The contracting authority will accept other documentation for equivalent environment management measures if a tenderer does not have the opportunity to get such certificates by the deadline, and this is not due to the tenderer himself. This is on the assumption that the tenderer documents that these measures are equivalent to the requested quality assurance standards or environment management systems or standards.

Minimum level(s) of standards possibly required:

See the above minimum requirements for the average annual workforce.

III.2. Conditions related to the contract

III.2.3. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

Section IV: Procedure
