Assignments will be published as restricted contests, where participants who participate in the DPS are invited to submit tenders. New providers can continually qualify for participation in the system.

Participation in the DPS does not involve any delivery obligation. Each tenderer must, on an independent basis, consider whether the published assignments are suitable as regards capacity, competence, time, place and size. However it is a prerequisite that tenderers are included in this scheme in order to submit a tender.

The criteria for the choice of tender for each assignment will be the need for subsidy, quality and speed, and scalability. The criteria will be stated in the different invitations to submit a tender.

The estimated value of this DPS is NOK 109 million, of which NOK 85.4 million is resources awarded in 2021. The county is not, however, bound to a specific volume or amount, it will cover its actual need.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents
