Legal basis:

Directive 2014/24/EU

2.1.5. Terms of procurement

Terms of submission:

Maximum number of lots for which one tenderer can submit tenders: 22

Terms of contract:

Maximum number of lots for which contracts can be awarded to one tenderer: 22

2.1.6. Grounds for exclusion

Sources of grounds for exclusion: Procurement Document, European Single Procurement Document (ESPD)

5. Lot

5.1. Lot: LOT-0001

Title: 1A Strategic consultancy and management

Description: Consultants with experience within strategic consultancy, but not limited to: a) Strategy: scenario methodology and foresight, outside world analyses and strategy development b) Change management: Structured approach to leading individuals, teams and organisations from a current condition to a desired future condition. c) Performance management – some key words (not limited to, but relevant topics: process improvement, management tool/management system, target and result management, risk analyses and internal control. d) Reviews, analyses and evaluations: evaluation methodology and effect analyses. The Norwegian Correctional Service shall be more data driven and it needs more advanced analyses, predictive models, risk profile, prognoses etc., therefore there is a need for competence in data modelling and advanced analyses. e) Socio-economic analysis: methods for assessing and comparing the total costs and benefits of a measure for society as a whole. f) Cost estimation and uncertainty analysis: The process of calculating what a measure or project will cost, as well as assessing how secure or uncertain these estimates are and what factors can affect them. g) Profit planning/follow-up: Identifying, planning and ensuring that the expected gains from a measure or project are actually realised and measured over time. h) Innovation, design and service development: Need for competence in system design/management design in addition to service design i) KI: this means competence in KI and how the organisation can use this in an appropriate way. This also includes competence and experience on prerequisites and other consequences connected to implementation, from the technical to the more organisational sides. Competence/certification within recognised methods will be relevant. The sub-area covers the business perspective, and in some cases may overlap sub-area 2A.

5.1. Lot: LOT-0014

Title: 5D Condition Analyses

Description: The Norwegian Correctional Service shall enter into parallel framework agreements for consultancy services. There is a need for consultancy to map the condition, uncover maintenance needs and provide a basis for further planning of maintenance and investments. a) The assignment can include: Mainly visual assessment of building elements and technical installations, in accordance with NS 3451 level 1 b) For some assignments, mapping can be relevant by level 2 or 3, possibly for some building parts. c) Assessment of condition degrees d) Prioritising deviations with estimated costs e) Reporting with pictures, descriptions and assessments of risk of further due date f) The assessments shall be based on NS 3451 (the Building Parts table). The assistance shall cover the contracting authority's need for condition analyses of different buildings, or hire conditions. The latter can be in connection with moving out of leased premises etc. Tenderers shall also be able to assist with consultancy services in different disciplines on individual projects or more thorough assessments on the basis of the condition analyses. This only applies to assignments from the

property company and does not apply for assignments from other entities as they have separate contracts for consultancy services. The execution and extent will depend on the needs and type of assignments.
