2.1. Procedure

Title: DCC Single Party Framework Agreement for the Supply, Installation, Commissioning, Maintenance and Support of the Traffic Sections Video Management System

Description: Dublin City Council Traffic Department is undertaking a Traffic Video Management System project: Dublin City Council (DCC) Traffic Department are undertaking a project to renew their aging Video Management System that is used to monitor and control their entire estate of traffic monitoring cameras throughout Dublin City. This VMS will manage the information stream from the Council's existing cameras and it's interface with control centre operators and the councils approved partners. For reference, this is being undertaken whilst upgrading and extending their control room capabilities, the details of which are provided under a separate procurement exercise. This programme covers the removal and disposal of some old technology related to the existing VMS system, plus the supply, installation, commissioning and configuration of new VMS technology and software, with support and maintenance for an initial period of 12 months, with up to four (4) additional periods of 12 months each available at the sole discretion of the Contracting Authority, subject to satisfactory performance, continued business need and budget availability The main requirements are divided into four parts: • Equipment Supply • Equipment Installation and Commissioning • Warranty • Support and Maintenance for 12 months with an option to extend the maintenance to 2 – 5 years subject to satisfactory performance, continued business need and budget availability For further information please refer to documentation available to download from www.etenders.gov.ie Resource ID 7121056. Please note that this project is subject to funding.
