List and brief description of selection criteria:

The applicant must confirm the economic ability in the ESPD part IV.B: "Economic and financial standing" with information from the latest annual report regarding the following economic indicators:

1. Equity (total equity incl. share capital, reserves, revaluation, retained earning etc.)
2. Equity ratio (equity/total assets). This must be stated with two decimals.

If the applicant is relying on the capacities of one or more other entities (e.g. a parent or sister company or a subcontractor) or the applicant is a group of economic operators (e.g. a consortium) the information for the ESPD part IV.B must also be given in a separate ESPD from each of these entities, cf. section VI.3 "Additional information". It is the sole responsibility of the applicant to secure that the minimum level(s) of standards required are reached on the basis of consolidation when the applicant is relying on the capacity of other entities or when the applicant is a group of economic operators (e.g. a consortium).

Minimum level(s) of standards possibly required:

Concerning 1: Equity from the latest annual report must, at the time of prequalification, be at least DKK 6,600,000 mio. DKK

III.1.3. Technical and professional ability

List and brief description of selection criteria:

The applicant can include the up to 5 most comparable and relevant references undertaken in the past three 5 years as part of the application. The references must be stated in the ESPD part IV.C: "Technical and professional ability". Undertaken in the past five 5 years implies that the reference must not have been completed prior to the date reached when counting 5 years backwards from the submission date for prequalification. References older than this will not be taken into consideration. References which have not yet been fully completed can be included as part of the application, but if this is the case, the applicant must describe the parts which have not yet been delivered, and this may affect the evaluation of the applicant, cf. section II. 2.9.

The references should include:

1. The applicant's role in the reference and which part of the reference the applicant performed
2. Diameter, steel grade, wall thickness, internal/external coating,
3. Volume (Kilometer and tons)
4. Location of reference project,
5. Contract value (if possible),
6. Date of initiation and final delivery (day, month, year),

Any ambiguities and/or incomprehensibilities concerning the above information may have a negative effect on the selection of candidates, cf. section II.2.9. Please note the "description" box can contain more text than is visible. I.e. it is possible to copy paste text into the box.

If the applicant is relying on the references of one or more other entities (e.g. a parent or sister company or a subcontractor) or the applicant is a group of economic operators (e.g. a consortium) the information for the ESPD part IV.C must also be given in a separate ESPD from each of these entities.

The number of references should not surpass a maximum of the 5 most comparable and relevant references. If the applicant is relying on the capacity of one or more other entities (e.g. a parent or sister company or a subcontractor) or the applicant is a group of economic operators (e.g. a consortium) the maximum number of references to be submitted must still be respected and cannot exceed 5 when combined.
