II.2.4. Description of the procurement

The contracting authority invites tenderers to a contest for the procurement of 1 ultrasound apparatus for the Department of Reproductive Medicine, OUS.

The Department of Reproductive Medicine is moving from Ullevål and Rikshospitalet to new premises at Ullevål Stadium. In connection with this, OUS will procure high-end ultrasound devices for the Department of Reproductive Medicine. The ultrasound devices will primarily be used by doctors at the Department for Reproductive Medicine. The device will be used for advanced diagnostics of conditions in the gynaecological organs/the female pelvis and as part of follow-up/treatment of assisted conception, as well as ultrasound-guided sampling. The device should also be able to be used for examinations of men with male infertility. The device must produce top quality images at a detailed level.

We would like tenders for two types of ultrasound devices that can be used, with an emphasis on gynaecology/obstetrics and/or specifically for examinations for assisted conception. See the tender documentation for further information.
