2. Procedure

2.1. Procedure

Title: Contract for the transport, reception and final treatment of hazardous waste.

Description: The objective of the procurement is to ensure that the Agency for Waste management and recycling (REG) reaches its goal of collecting all hazardous waste from households. The current sub-contracts for transport and reception of hazardous waste expire 31.12.2026. In order for the agency to offer Oslo municipality's inhabitants the services for the receipt and collection of hazardous waste, it is necessary that the agency has contracts that ensure that the hazardous waste is transported to certified reception for further treatment and destruction. The current estimates are uncertain, i.a. due to new possible fractions and how the existing fractions develop.

5.1.9. Selection criteria

Sources of selection criteria: Notice

Criterion: Enrolment in a trade register

Description of selection criterion: The tenderer shall be a legally established company.

Documentation requirements: Norwegian companies: Company Registration Certificate.

Foreign companies: Proof that the company is registered in a trade or business register as prescribed by the law of the country where the company is established.

Criterion: Other economic or financial requirements

Description of selection criterion: The tenderer shall have sufficient economic and financial capacity to be able to fulfil the contract. Documentation requirements: The company's last Annual Financial Statements including notes, the Board's Annual Report and Audit Report, as well as new information of relevance to the company's fiscal numbers. The contracting authority reserves the right to obtain credit appraisal on its own initiative.

Criterion: Environmental management measures

Description of selection criterion: A good and well-functioning management system is required for the environment for the services that shall be provided. This means that the tenderer has methods for working actively and systematically to reduce negative environmental impact from activities connected to the execution of this contract. Documentation requirements: A description of the tenderer's environmental management measures. If a tenderer has certificates from independent bodies that document the environmental management system, they can be presented as documentation. Refer to the EU Scheme for Environmental Management and Environmental Audit (EMAS), other recognised environmental management systems in regulation (EF) no. 1221/2009 article 45, or equivalent, and other environmental management standards based on relevant European or international standards from accredited bodies such as ISO 14001 or equivalent.

Criterion: Measures for ensuring quality

Description of selection criterion: Tenderers shall have a relevant quality assurance system for the content of the contract. Documentation requirements: A description of the tenderer's quality assurance methods. Alternatively: Certificate for the company's quality assurance system issued by independent bodies that confirms the tenderer fulfils certain quality assurance standards, for example ISO 9001:2015.

Criterion: Supply chain management

Description of selection criterion: Tenderers shall be suited to fulfil contract requirements for due diligence assessments for responsible businesses (see contract point 12). This means that the Tenderer has implemented measures and systems that are used in the Tenderer's work to safeguard basic human rights and decent working conditions, as well as prevent environmental degradation and corruption. Documentation requirements: A description of the tenderer's systems for working with due diligence assessments in accordance with the UN's guiding principles for business and human rights (UNGP) and OECD's guidelines for multinational companies.
