Internet address(es):

Main address: <https://www.coch-cps.co.uk/>

I.2. Information about joint procurement

The contract involves joint procurement

The contract is awarded by a central purchasing body

I.4. Type of the contracting authority

Body governed by public law

I.5. Main activity

Health

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Healthcare Output and Content Management System

Reference number: F/029/HCMS/19/IB

II.1.2. Main CPV code

48814000 Medical information systems

II.1.3. Type of contract

Services

II.1.4. Short description

Countess of Chester Hospital Commercial Procurement Services operates a successful national framework for a healthcare output and content management system that is due to expire on 29.2.2020. This notice concerns the invitation to tender for a new framework, commencing 1.3.2020.

The new framework will provide a healthcare output content management system that will enable participating organisations who call off contracts to access silos of information that typically sit across multiple best of breed clinical systems and various storage media. The system provides a single access point for information and enables migration to an entire digital information platform.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 65 000 000,00 GBP

II.2. Description

II.2.2. Additional CPV code(s)

30210000 Data-processing machines (hardware), 44316400 Hardware, 48600000 Database and operating software package, 48810000 Information systems, 79800000 Printing and related services, 79996100 Records management, 79999100 Scanning services

II.2.3. Place of performance

NUTS code: UK United Kingdom

II.2.4. Description of the procurement

A healthcare output and content management system concerns the provision of hardware and software solutions and services that enable an NHS organisation to manage its output and data silos typically present within its best of breed clinical systems and other support systems. The system can be composed of several modular components which all work together to create a coherent platform for managing output and healthcare content to enrich hospitals' existing investments in systems, such as, electronic patient record (EPR) systems and Patient administration systems (PAS).

At a high-level, the solution must provide:

- user friendly, simple and clean single source access portal which presents data (stored and managed content) from all hospital clinical systems,
- ability to store electronically-generated healthcare content;
- ability to manage healthcare content throughout its lifecycle, providing auditable information and appropriate security;
- ability to capture and route new information from analogue and digital sources, including the provision of e-forms;
- enterprise based software licences to view, access, capture and route information;
- ability to integrate with scanning and archiving solutions;
- ability to integrate hardware (output device/MFD) with clinical systems;
- training and professional services for implementation and maintenance;
- software and hardware maintenance;

— appropriate hardware to facilitate transition to digital patient records and a digital enterprise.

Total solution

Bidders must offer a solution that encompasses all of the modular elements described in the ITT documents. These elements may be called-off and established individually to enable NHS organisations to adopt this technology with minimal impact to its patient services and available funding. Call-off contracts will include a roadmap of total or partial adoption. There is no obligation under this agreement for NHS organisations to commit to purchase all available modules. However, for the avoidance of doubt, this framework cannot be utilised to award a managed print/hardware service with no intention to ever adopt other modules provisioned in this framework. The purpose of this is to not distort the already well-established hardware market, which many other framework agreements already service.

This will be a framework agreement with no commitment or guaranteed level of business.

II.2.5. Award criteria

Quality criterion - Name: Total solution — technical response to illustrative scenario / Weighting : 20

Quality criterion - Name: Core viewer and access to content application / Weighting: 10

Quality criterion - Name: Storing and managing content / Weighting: 10

Quality criterion - Name: Intelligent capture and indexation solution / Weighting: 10

Quality criterion - Name: Electronic forms solution / Weighting: 10

Quality criterion - Name: Output management solution (including hardware) / Weighting: 10

Quality criterion - Name: Means of compliance with technology/interface standards / Weighting : 10

Cost criterion - Name: Commercial / Weighting: 20

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2019/S 188-457590](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a prior information notice

Section V: Award of contract

Title:

Award of a Framework Agreement

A contract/lot is awarded: yes

V.2. Award of contract

V.2.1. Date of conclusion of the contract

02/12/2019

V.2.2. Information about tenders

Number of tenders received: 1

The contract has been awarded to a group of economic operators: no

V.2.3. Name and address of the contractor

Official name: Lexmark International Ltd

Town: Maidenhead

NUTS code: UKJ1 Berkshire, Buckinghamshire and Oxfordshire

Country: United Kingdom

The contractor is an SME: no

V.2.4. Information on value of the contract/lot

Total value of the contract/lot: 65 000 000,00 GBP

V.2.5. Information about subcontracting

Section VI: Complementary information

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Royal Courts of Justice

Town: London

Country: United Kingdom

VI.5. Date of dispatch of this notice

10/12/2019
