Legal type of the buyer: Public undertaking, controlled by a central government authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: 10012414 - Development of Local Land Use and Sustainable Development Plans (LLUSDP) in four target municipalities in Cameroon

Description: Cameroon possesses an exceptional forest heritage, with nearly 19 million hectares of dense rainforest covering almost 40 % of its territory. Located in the Congo Basin- the world's second-largest tropical forest after the Amazon-these forests are a major biodiversity reservoir and a critical global carbon sink. However, this ecological capital is under increasing pressure. Cameroon's annual deforestation rate is estimated at 0.6-1 %, corresponding to more than 100,000 hectares lost each year. Direct drivers include illegal logging, mining, infrastructure development, unplanned urbanisation and agricultural expansion, the latter accounting for about 60 % of total deforestation. In 2021, the Centre, South and Littoral regions alone represented around 61 % of national forest loss. These trends are reinforced by structural factors such as rapid population growth (expected to double by 2046), accelerating urbanisation, persistent rural poverty, weak land governance and limited planning capacity at local level. In response, Cameroon has committed to major international frameworks aimed at reducing deforestation and achieving carbon neutrality by 2050, notably the Paris Agreement (COP21) and the Glasgow Forest Declaration (COP26). Nationally, land-use planning reforms-especially the Framework Law on Land Use Planning and its instruments (national, regional and local plans, including LLUSDP)-seek to establish integrated multi-level spatial planning. Yet implementation remains constrained by insufficient legal, technical and operational capacities, limiting effective coordination of development and forest conservation. Within this context, the GIZ-implemented module "Capacity Building in Land Use Planning," financed by CAFI and BMZ, aims to promote inclusive and sustainable spatial planning that reduces forest pressure while supporting balanced economic development. The module comprises five outputs, including strengthening the legal basis for the 2011 planning law, building municipal and regional planning capacities, developing LLUSDP in four pilot municipalities, and preparing methodological tools for the third national forest inventory. Among its components, Output 4 is particularly important from a strategic perspective. It aims to develop LLUSDP in the municipalities of Ngambé-Tikar and Mfou (Central Region), Melong (Littoral Region) and Akom II (Southern Region). These LLUSDP will be developed in accordance with the guidelines set out in the methodological guide for developing LLUSDP,

which was drawn up in 2021 with the support of GIZ as part of the ABC-PADER programme. This methodology was also tested as part of the previous programme through the development of the LLUSDP for Ngong (Northern Region). This practical experience will therefore be put to good use in this module. In addition, the methodology will take into account the potential existence of ecosystem corridors in order to preserve ecological connectivity, which is essential for the movement of animal species, ecosystem regeneration and climate resilience. This will promote an inter-municipal vision of continuity between forests, protected areas, etc. The LLUSDP development process will be participatory, involving a range of stakeholders, including municipal authorities, the relevant sectoral administrations (MINEPAT, MINDDEVEL, MINDCAF, MINFOF, MINADER, MINEPIA MINMIDT, MINMIDT, MINTP, MINEPDED, etc.), traditional authorities, women, young people, etc. It will improve the determination of land uses and utilisation, leading to a reduction in land conflicts and pressure on forest resources. In addition, emphasis will be placed on the initial implementation of the validated LLUSDP with the subsequent development of implementation support plans. Ultimately, Output 4 is a fundamental lever for making the LLUSDP an operational tool for combating deforestation and land degradation, while strengthening territorial governance and the resilience of local communities.

Title: 10012414 - Development of Local Land Use and Sustainable Development Plans (LLUSDP) in four target municipalities in Cameroon

Description: The objective of the consultancy service covered by the call for tenders is the complete, successful and autonomous implementation of output 4 of the module by the contractor. The contractor is therefore responsible for achieving the objectives of output 4. The

contractor is responsible for achieving the output indicators and corresponding results. The contractor thus contributes to the achievement of specific module and output indicators. The relevant module and output indicators according to the module proposal and results matrix are presented in section 2.2 of the ToR. The implementation of Output 4 includes supporting the preparation and initial implementation of Local Land-Use and Sustainable Development Plans (LLUSDP - Plan local d'Aménagement et de Développement Durable du Territoire, PLADDT) in four pilot municipalities. The LLUSDP represents an innovative municipal land-use planning instrument already supported by GIZ, providing a structured framework for improving local land-use planning and strengthening participatory decision-making processes at the municipal level. Through this approach, municipalities are supported in defining sustainable land-use priorities and coordinating competing land-use interests. The planning process will be implemented in the four municipalities Ngambe-Tikar, Melong, Akom II and Mfou, leading to the validation of the LLUSDP by the respective municipal councils. Following the validation of the plans, support plans for their initial implementation will be developed in order to facilitate the operationalisation of priority measures. The contractor will ensure that the official methodological guide for the development of LLUSDP is applied throughout the process. In this context, the contractor will provide technical and methodological support to municipalities during both the development and the early implementation phase of their LLUSDP. Particular attention will be given to the conservation of natural resources (forests, biodiversity and soils), climate-resilient land-use planning, and the inclusion of the rights and needs of women, youth and indigenous populations. Women's organisations will also be supported in strengthening their advocacy for improved access to land and participation in land-use planning processes. The concrete activities are presented in section 2.2 of the ToR.

Internal identifier: 10012414

5.1.1. Purpose

Main nature of the contract: Services

Main classification (cpv): 75211200 Foreign economic-aid-related services

Additional classification (cpv): 90710000 Environmental management, 90712000

Environmental planning, 90712200 Forest conservation strategy planning, 90712400 Natural resources management or conservation strategy planning services

Options:

Description of the options: GIZ may optionally commission contract amendments and/or increases based on the criteria in the tender documents to the successful bidder of this tender. For details, please see section 7 of the terms of reference.

5.1.2. Place of performance

Postal address: B.P 7814, Rue 1 820

Town: Yaoundé

Country: Cameroon

Additional information: Bureau Régional GIZ à Yaoundé; B.P 7814, Rue 1 820, Yaoundé, Cameroun

5.1.3. Estimated duration

Duration: 20 Months

5.1.4. Renewal

Maximum renewals: 2

Other information about renewals: GIZ may optionally commission contract amendments and /or increases based on the criteria in the tender documents to the successful bidder of this tender. For details, please see section 7 of the terms of reference.

5.1.6. General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.7. Strategic procurement

Aim of strategic procurement: Reduction of environmental impacts

Description: See sections 2.5 and 3.3.4 of the Terms of reference.

Aim of strategic procurement: Fulfilment of social objectives

Description: See sections 2.5 and 3.3.4 of the Terms of reference.

Approach to reducing environmental impacts: Pollution prevention and control, Other

Social objective promoted: Ethnic equality, Gender equality, Other

5.1.10. Award criteria

Criterion:

Type: Price

Name: Price

Description: Consideration of the price through the valuation method "Bestangebots-Quotienten-Methode"

Category of award weight criterion: Weight (points, exact)

Award criterion number: 30

Criterion:

Type: Quality

Name: Erreichte Gesamtpunktzahl nach fachlicher Wertung (inkl. Mindbed.)

Description: Zur Ermittlung des wirtschaftlichsten Bieters wird hier von der Vergabestelle die erreichte Gesamtpunktzahl nach fachlicher Wertung eingetragen. Es werden nur Angebote mit einer fachlichen Bewertung von mindestens 500 Punkten gewertet. Fachliche Angebote mit weniger Punkten scheiden als fachlich ungeeignet aus.

Category of award weight criterion: Weight (points, exact)

Award criterion number: 70

Criterion:

Type: Quality

Name: Erreichte Gesamtpunktzahl nach fachlicher Wertung (inkl. Mindbed.)

Description: Zur Ermittlung des wirtschaftlichsten Bieters wird hier von der Vergabestelle die erreichte Gesamtpunktzahl nach fachlicher Wertung eingetragen. Es werden nur Angebote mit einer fachlichen Bewertung von mindestens 500 Punkten gewertet. Fachliche Angebote mit weniger Punkten scheiden als fachlich ungeeignet aus.

Category of award threshold criterion: Minimum score

Award criterion number: 500

5.1.15. Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: Vergabekammern des Bundes

Information about review deadlines: According to Article 160, Section 3 of the German Act Against Restraint of Competition (GWB), application for review is not permissible insofar as 1. the applicant has identified the claimed infringement of the procurement rules before

submitting the application for review and has not submitted a complaint to the contracting authority within a period of 10 calendar days; the expiry of the period pursuant to Article 134, Section 2 remains unaffected, 2. complaints of infringements of procurement rules that are evident in the tender notice are not submitted to the contracting authority at the latest by the expiry of the deadline for the application or by the deadline for the submission of bids, specified in the tender notice. 3. complaints of infringements of procurement rules that first become evident in the tender documents are not submitted to the contracting authority at the latest by the expiry of the deadline for application or by the deadline for the submission of bids, 4. more than 15 calendar days have expired since receipt of notification from the contracting authority that it is unwilling to redress the complaint. Sentence 1 does not apply in the case of an application to determine the invalidity of the contract in accordance with Article 135, Section 1 (2). Article 134, Section 1, Sentence 2 remains unaffected.

6. Results

Value of all contracts awarded in this notice: 814 830,00 EUR

6.1. Result lot identifier: LOT-0001

Winner selection status: At least one winner was chosen.

6.1.2. Information about winners

Winner:

Official name: Dorsch Impact GmbH

Tender:

Tender identifier: 8 - 94628

Identifier of lot or group of lots: LOT-0001

Value of the tender: 814 830,00 EUR

The tender is a variant: no

Subcontracting: Not yet known

Contract information:

Identifier of the contract: 1

Title: Dorsch Impact GmbH, 45128 Essen

Date of the conclusion of the contract: 27/07/2026

6.1.4. Statistical information

Received tenders or requests to participate:

Type of received submissions: Tenders

Number of tenders or requests to participate received: 8

Type of received submissions: Tenders submitted electronically

Number of tenders or requests to participate received: 8

Type of received submissions: Tenders from tenderers registered in other European Economic Area countries than the country of the buyer

Number of tenders or requests to participate received: 2

Type of received submissions: Tenders from tenders registered in countries outside of the European Economic Area

Number of tenders or requests to participate received: 1

Type of received submissions: Tenders verified and inadmissible

Number of tenders or requests to participate received: 2

Type of received submissions: Tenders verified and inadmissible because of an abnormally low price or cost

Number of tenders or requests to participate received: 0

Range of tenders:

Value of the lowest admissible tender: 756 770,00 EUR

Value of the highest admissible tender: 1 319 330,00 EUR
