II.1.4. Short description

The procurement project will deliver a 4-year multi-lot framework agreement. The current estimated maximum spend through the framework is 17 000 000 GBP, although the framework is formally a zero-value agreement, with no spend guaranteed.

The scope of the new framework is to undertake the following:

- IP-2 ISO Container and equipment supply, LQR records and design support,
- UN Approved Drum supply,
- soft sided packaging supply,
- spares and repairs for Type B Novapak and Associated Equipment.

LLWR's scope also encompasses associated services in support of elements of the above including design, maintenance and repair (where applicable), for example loading plans support and licensing support.

Current identified exclusions from the framework scope include:

- SQE services,
- engineering support.
