2. Procedure

2.1. Procedure

Title: Maintenance of scientific laboratory equipment in 3 lots (Perkin Elmer Instruments, Agilent Instruments and Applied Biosystems Instruments)

Description: JRC-Ispra scientific laboratories need to conclude a framework contract for the maintenance services of chemical and biological laboratory instruments. The procedure is divided into 3 lots: Lot 1: Maintenance services for Perkin Elmer Scientific Instruments; Lot 2: Maintenance services for Agilent Scientific Instruments; Lot 3: Maintenance services for Applied Biosystems (Life Technologies) Instruments. The uninterrupted, reliable operation of such scientific instrumentation is a fundamental prerequisite for delivering high quality research outputs and policy#relevant evidence. At present, three distinct framework contracts govern the preventive and corrective maintenance of three corresponding classes of instruments present in several scientific units of the JRC-Ispra, and all of these contracts are set to expire at the end of 2026, creating an imminent risk of service interruption and a fragmented environment. The maintenance subject of this call for tenders will provide for continuity of service.
