II.1.4. Short description

The contract is for the delivery of a cloud based system for a platform for the receipt of alarms from welfare technological equipment in nursing homes, as well as a framework agreement for welfare technological equipment that will be connected to the platform. Welfare technological equipment means patient signalling systems.

At first Hogsnes helsehus will be connected to the platform, thereafter an assessment will be made in the other nursing homes. The contracting authority will have an option to connect home services to the platform, and an option for welfare technological services for the home care service.

The contract value is estimated to be above the EEA threshold. The estimated value is not binding for the contracting authority. The need is uncertain. At first the contract will be for the establishment of the platform and connection of the new Hogsnes nursing home. More nursing homes in the municipality can be transferred to the platform in time. The volume will be dependent on amongst other things, the contracting authority's requirements, activities, budget and other framework factors.
