II.1.4. Short description

The vision of the Enhanced Community Care programme's interim ICT solution is to digitally enable clinicians to deliver increased levels of healthcare across general practice, primary care and community-based services. Aims and Objectives

- Support the move to a digitally enabled, 'paper lite' community service for clinicians and service users
- Facilitate the capturing and reporting of activity and outputs of ECC Teams as required through the EMT, HSE Board, DoH and Sláintecare Board reporting requirements at senior level
- Enable improved clinical decision-making by multidisciplinary teams by providing real-time access to patient information at the point of care
- The interim ICT solution should support defined and future-developed care pathways and also assist in the future implementation of the ICCMS solution.
- To provide a familiar and consistent user experience nationally, which will enhance the quality of the data inputted and increase the efficiency and effective use of the system.
- Provide management teams within the HSE with sufficient data required to drive future decision-making
