Subcontract B is cancelled due to a lack of competition.

There are only two remaining tenders in the contest for subcontract B that do not need to be rejected, and this means that competition is significantly weakened. The contest shows that there is reason to anticipate competition among many suppliers for this subcontract, and

thereby achieve good competition for the stated award criteria. In addition, PFT wants to enter into parallel contracts with up to five suppliers for this subcontract, so that competition for the award criteria can also be achieved in the mini-contests to be carried that will be held under the contract.
