II.1.4. Short description

The objective of the study is to provide reliable and robust monitoring data that will serve the basis for the Commission's ex-post evaluation of cohesion policy programmes co-financed from the ERDF and the Cohesion Fund in the 2014-2020 programming period. The work carried out under this contract will provide input to the ex post evaluation in terms of:

- 1) creating a single database of the funded operations and classifying them according their scope of intervention, form of finance and type of beneficiary; and
- 2) gathering, classifying and quality assessing the output indicator data collected by managing authorities.

The study will exploit, analyse and synthetise the vast amount of monitoring data available in the national/regional monitoring systems so that it can be processed further and used for later analysis and evaluation work.
