Duration in months: 96

This contract is subject to renewal: no

#### **II.2.9. Information about the limits on the number of candidates to be invited**

Maximum number: 3 Objective criteria for choosing the limited number of candidates:

If more than 3 applicants fulfill the minimum requirements, cf. section III, the Contracting Authority will prequalify the 3 applicants who are evaluated as most qualified for the specific tendered assignment. Only these applicants will be invited to submit a tender. The selection of the applicants will be based on the submitted references. That is to which extend the reference (s) are assessed to be similar to the tendered assignment, cf. section II.2.4, in terms of

comparability and relevance. As a result, the number of references will not be the determining factor alone, but more importantly to which degree the specific forwarded references are comparable and relevant to the tendered assignment regarding solution and scope. The following will in particular be rated positively:

- Sonar measurement references in relation to gas caverns under high pressure.
- MIT (Mechanical Integrity Test) measurement references in relation to gas caverns under high pressure.
- That the references cover various measurement types included in the framework agreements' scope.

#### **II.2.10. Information about variants**

Variants will be accepted: no

#### **II.2.11. Information about options**

Options: yes

Description of options:

Companies in which Energinet SOV or another company in the Energinet group acquire half or more than half of the capital or have the authority to exercise half or more than half of the voting rights or has the right to manage the company's business regardless of the official name during the term of the Frame Agreement will have an option to use the Frame Agreement.

The Framework Agreement can be expanded 2 times with 20 percent of the value of the Framework Agreement as stated in the tender notice, in cases where the circumstances for the scope of the Framework Agreement have changed from the time of the conclusion of the tender, cf. Framework Agreement sub-section 8.2.

#### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds: no

#### **II.2.14. Additional information**

Please note that this is a negotiated procedure. Except for mandatory parts, the Tender Documents may as a result undergo changes as part of the negotiation process.

### **Section III: Legal, economic, financial and technical information**

---

#### **III.1. Conditions for participation**

##### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

The applicant must confirm the economic ability in the ESPD part IV.B: "Economic and financial standing" with information from the latest annual report at the submission date for prequalification - regarding the following economic indicators:

1. Equity (total equity incl. share capital, reserves, revaluation, retained earning etc.)
2. Equity ratio (equity/total assets)

If the applicant is relying on the capacities of one or more other entities (e.g., a parent or sister company or a subcontractor) or the applicant is a group of economic operators (e.g., a consortium) the information for the ESPD part IV.B must also be given in a separate ESPD from each of these entities, cf. section VI.3 "Additional information". It is the sole responsibility of the applicant to secure that the minimum level(s) of standards required are reached based on consolidation when the applicant is relying on the capacity of other entities or when the applicant is a group of economic operators (e.g., a consortium).

Minimum level(s) of standards possibly required:

Concerning 1: Equity from the latest annual report must be at least EUR 900.000

Concerning 2: Equity ratio from the latest annual report (at the submission date for prequalification) must be at least 20 pct. If the equity ratio is between 15 pct. and 20 pct. the applicant can qualify if Equity exceeds EUR 2.700.000.

### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

The applicant must include the up to 10 most comparable and relevant references undertaken in the past three (3) years as part of the application. The references should preferably include various measurement types included in the framework agreements' scope, e.g., 5 Sonar measurement references and 5 MIT measurement references, and preferably relate to gas caverns.

The references must be stated in the ESPD part IV.C: "Technical and professional ability". Undertaken in the past three (3) years implies that the reference must not have been completed prior to the date reached when counting three (3) years backwards from the submission date for prequalification. References older than this will not be taken into consideration. References which have not yet been fully completed can be included as part of the application, but if this is the case, the applicant must describe the parts which have not yet been delivered, and this may affect the evaluation of the applicant, cf. section II.2.9.

The references should include a description of the work performed for each reference, including:

1. Cavern type and pressure
2. Measurement type
3. Contract value (if possible)
4. Contact information for the entity in question (if possible, including contact person)
5. Date of initiation and final delivery (day, month, year)

Any ambiguities and/or incomprehensibilities concerning the above information may have a negative effect on the selection of candidates, cf. section II.2.9. Please note the "description" box can contain more text than is visible. I.e., it is possible to copy paste text into the box. If the applicant is relying on the references of one or more other entities (e.g., a parent or sister company or a subcontractor) or the applicant is a group of economic operators (e.g., a consortium) the information for the ESPD part IV.C must also be given in a separate ESPD from each of these entities.

The number of references should not surpass a maximum of the 10 most comparable and relevant references. If the applicant is relying on the capacity of one or more other entities (e.g., a parent or sister company or a subcontractor) or the applicant is a group of economic operators (e.g., a consortium) the maximum number of references to be submitted must still be respected and cannot exceed 10 when combined. If more than 10 references are included, the Contracting Authority will only consider the 10 most recent references determined by date of final delivery (in this case not yet finished references will not be included).

Minimum level(s) of standards possibly required:

The applicant must submit minimum

- One (1) sonar measurement reference in relation to gas caverns under high pressure and
- One (1) MIT (Mechanical Integrity Test) measurement references in relation to gas caverns under high pressure.

The applicant must have implemented and maintain a Health, Safety and Environment management system. This Management system shall comply with the latest edition of OHSAS 18001, ISO 45001 or other equivalent international standards as applicable.

#### **III.1.4. Objective rules and criteria for participation**

List and brief description of rules and criteria:

The applicant must submit a completed version of the ESPD.

Applicants may not be subject to the mandatory grounds for exclusion, cf. the Danish Public Procurement Act (udbudsloven) Section 135 (1-3) and 136.

Please see section VI.3 "Additional information" for further information regarding the ESPD.

The application must be submitted through EU-Supply, cf. link in section I.1 in this TED announcement. Applications not submitted via EU-Supply or received after the deadline will not be accepted.

The Contracting Authority reserves the right to request the applicant to supplement, specify or complete the information submitted.

#### **III.1.6. Deposits and guarantees required**

The information is stated in the Tender Documents.

#### **III.1.7. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them**

The information is stated in the Tender Documents.

#### **III.1.8. Legal form to be taken by the group of economic operators to whom the contract is to be awarded**

The information is stated in the Tender Documents.

### **Section IV: Procedure**

---

#### **IV.1. Description**

##### **IV.1.1. Type of procedure**

Negotiated procedure with prior call for competition

##### **IV.1.3. Information about a framework agreement or a dynamic purchasing system**

The procurement involves the establishment of a framework agreement

Framework agreement with a single operator

##### **IV.1.4. Information about reduction of the number of solutions or tenders during negotiation or dialogue**

Recourse to staged procedure to gradually reduce the number of solutions to be discussed or tenders to be negotiated

##### **IV.1.8. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

#### **IV.2. Administrative information**

##### **IV.2.2. Time limit for receipt of tenders or requests to participate**

Date: 10/12/2021 Local time: 12:00

##### **IV.2.4. Languages in which tenders or requests to participate may be submitted**

English

##### **IV.2.6.**

## **Minimum time frame during which the tenderer must maintain the tender**

Duration in months: 3 (from the date stated for receipt of tender)

### **Section VI: Complementary information**

---

#### **VI.1. Information about recurrence**

This is a recurrent procurement: no

#### **VI.2. Information about electronic workflows**

Electronic invoicing will be accepted

Electronic payment will be used

#### **VI.3. Additional information**

The applicant must submit a completed ESPD to apply for prequalification for this tender procedure. The ESPD for this tender can be found via EU-supply. The ESPD must be completed in EU-Supply and submitted via "My Response".

Please note:

- An applicant participating on its own, but relying on the capacities of one or more other entities (e.g. a parent or sister company or a subcontractor), must ensure that the application includes the applicants own ESPD together with a separate ESPD from each of the entities it relies on with a completed part II: "Information concerning the economic operator" and part III: "Exclusion grounds" of the ESPD as well as the relevant information regarding part IV: "Selection criteria" and part V: "Reduction of the number of qualified candidates". The ESPD from each of the entities should be duly filled and signed by the entities concerned.

Further where an applicant wants to rely on the capacities of other entities, it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect, which must be submitted as part of the final documentation.

- Where groups of economic operators, including temporary associations, participate together in the procurement procedure, a complete separate ESPD for each of the participating economic operators must be submitted.

Further the final documentation must include a signed declaration by all parties of the group of economic operators (joint venture, consortium or other) stating that all economic operators assume joint and several liabilities towards the Contracting Authority for the performance of the contract as a whole.
