5.1. Lot: LOT-0002

Title: Lot 2 - IT Operational Technology / Asset Operations

Description: This lot covers the provision of data services for IT/OT and AO devices and equipment. In most cases, this will involve the use of data SIMs installed directly into operational assets such as loggers, controllers, and sensors. Unlike standard SIMs, these specialised SIMs will support enhanced connectivity capabilities as new technologies emerge, including global “any network” roaming and direct satellite connectivity. This will be a multi vendor lot, with one primary supplier and cascading options to additional suppliers where the primary vendor is unable to meet specific connectivity requirements. This approach will also support the smooth transition of SIMs from local authorities without necessitating network changes. Full details are contained in the attached procurement documents.
