### 1.1. Buyer

Official name: Troms fylkeskommune

Email: [frida.hansen@tromsfylke.no](mailto:frida.hansen@tromsfylke.no)

Legal type of the buyer: Regional authority

Activity of the contracting authority: General public services

## 2. Procedure

---

### 2.1. Procedure

Title: Fruit and vegetables to Troms County

Description: Troms County (hereafter called the contracting authority) shall enter into a new framework agreement for the delivery of fresh fruit and vegetables to our canteens. The contract shall enter into daily operation of the contracting authority's canteens, where the aim is to cover the customers' needs for food products of good quality within the assortment of fruit and vegetables. The contract shall ensure that the contracting authority, in accordance with the current laws and regulations, achieves a cost efficient and rational procurement of fruit and vegetables. The products included in the contract shall be used for both food production and serving. See the attached documents for a more detailed description of the contracting authority's needs and requirements for the delivery.

Procedure identifier: 4d1a5e7c-f826-4ca2-a3d3-90539ba373aa

Previous notice: c54e1a15-abaf-4e64-865d-a5e42884c94b-01

Internal identifier: 25/07144

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: A framework agreement shall be signed for a period of two years + one year + one year.

#### 5.1.6. General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

#### Information about previous notices:

Identifier of the previous notice: 274233-2025

#### 5.1.10. Award criteria

**Criterion:**

Type: Price

Name: Price

Description: The award will be based on which tender has the lowest price.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 100

**Criterion:**

Type: Quality

Name: Environment

Description: According to the Procurement Regulations § 7-9 fourth paragraph, the award criteria in accordance with the second and third paragraphs can be replaced with climate and environmental requirements in the requirement specifications, if it is clear that this provides a better climate and environmental effect and this is justified in the procurement documents. If the contracting authority does not prioritise in line with the third section, climate and environmental requirements shall be set in the requirement specifications, and this shall be justified in the procurement documents. It is considered clear in this procurement that the use of the minimum requirements in the requirement specifications will provide a better climate and environmental effect than that achieved by weighting climate and the environment by 30%. The procurement is assessed in a lifetime perspective and areas for climate and environmental gains have been identified and used as the basis for the requirements set. Based on market mapping including a supplier dialogue (RFI) In May 2025 and the competitive situation, it is considered that the market is mature in order to set minimum requirements for climate and environment for products and services in this procurement of fruit and vegetables. There are a number of requirements regarding, among other things, packaging, recycling schemes, food waste, transport and organic products, see the requirement specifications point 8.1-8.14. The transport part of the procurement is considered suitable for setting minimum requirements for emission free transport. There are requirements for a minimum of 25% of the meetings in the contract the first contract year shall be with vehicles that go completely on electricity, hydrogen, biogas or a combination thereof. The share is therefore required to increase by 15% for each contract year. In this way, it is ensured that a share of the service is emission free with the accompanying climate gains both locally and globally. By setting this as an evaluation requirement, we had no guarantee of equal value from the reduction of greenhouse gas emissions. There are strict requirements regarding the assortment of ecological products, which in turn can generate major environmental gains from contract use. Furthermore, packaging is required that avoid use of unnecessary packaging, halogenous packaging, as well as an increased share of reuse and recycling of packaging and the use of recycling materials in packaging. If these requirements had been set as evaluation requirements, it would not have been certain that the winning tender offer had offered equivalent quality of packaging and organic assortment. By setting the requirements as the minimum requirements in the requirement specification, the contracting authority clearly gives a better climate and environmental effect than weighting the award criteria environment by 30%.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 0

**5.1.15. Techniques****Framework agreement:**

Framework agreement, without reopening of competition

**Information about the dynamic purchasing system:**

No dynamic purchase system

#### 5.1.16. Further information, mediation and review

Review organisation: Nord-Troms og Senja tingrett

Information about review deadlines: In accordance with the rules for appeals.

Organisation signing the contract: Troms fylkeskommune
