Main site or place of performance: Havnegade 120, 5000 Odense.

II.2.4. Description of the procurement

Fjernvarme Fyn is tendering the technical consultancies for the entire Carbon Capture project at Fjernvarme Fyn. The project is tendered early 2024 and is expected to be commissioned late 2028. The tender covers a frame agreement for all technical consultancies during the entire period.

II.2.5. Award criteria

Criteria below

Quality criterion - Name: Strength of organisation, robustness, and flexibility / Weighting: 40%

Quality criterion - Name: Risk analysis and task approach / Weighting: 30%

Price - Weighting: 30%

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 16/01/2024 End: 30/06/2029

This contract is subject to renewal: yes

Description of renewals:

The agreement can be prolonged with up to 12 months 2 times.

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 5
Objective criteria for choosing the limited number of candidates:

In the selection of applicants, the Client will place emphasis on whether the applicant has the sufficient economic and financial capacity to perform the agreement. The applicant must, as a minimum, meet the following requirements:

- Revenue within the area of the agreement (most recent financial year) must be DKK 100 million or more.
- Average solvency ratios of the three most recent financial years available must be 20% or more.
- The tenderer must have at least 100 employees.

If the applicant has not existed as a company for a period of three years, key figures for the period of time in which the applicant has existed as a company must be provided. The minimum requirements will only apply for the period of time in which the applicant has existed as a company.

The minimum requirements to participate for the technical and professional capabilities of tenderers are:

References

For the evaluation of technical and professional capabilities, the applicant must state in the ESPD the applicant's significant deliverables in/under similar projects/agreements that are performed within the past five years. The applicant can enclose reference sheets or similar annexes that describe and illustrate such references, but reference must be made to the ESPD.

Ongoing references may be used only for the deliverables that have been completed and this includes also the value of services already performed.

The applicant must be able to demonstrate at least 2 references for Carbon Capture projects within each of the following three categories:

- Kat. 1 - Post combustion carbon capture plants.

References larger than 150.000 t CO₂/year will be evaluated positively and experience with waste to energy plants will also be evaluated positively. Heat recovery from preceding plants delivered to a district heating system will be evaluated positively.

- Kat. 2 - Compressing, liquefaction, intermediate storing and handling of CO₂.

References larger than 80.000 t/year will be evaluated positively.

- Kat. 3- Building and construction references.

References in connection with erection of processing plants will be evaluated positively.

A single reference may contain more than one of the above categories, thus covering one or more categories as mentioned above.

For each of the above reference categories, tenderers are advised to provide the following information in the list of references:

- I. Specification of which category or categories the reference concerns
- II. The name of the entity in the reference
- III. The period in which the project was performed
- IV. The roles that the applicant carried out in the project
- V. The economic size of the reference performed by the applicant

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

Prolongation of the agreement is optional with up to 12 months 2 times.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Economic operators, including any sub-suppliers of applicants will be excluded from participation, if the economic operator is covered by the mandatory grounds for exclusion under §§ 135-136 of the Danish Public Procurement Act.

In addition, an economic operator will be excluded from participation, if such economic operator is covered by the voluntary grounds for exclusion which will be § 137, stk.1, 2, 3 and 5 and § 11 in Notice no. 1078 of 29/06/2022, § 134 a regarding tax jurisdictions and Council regulation 2022/576 of 8th April 2022 regarding Russia.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

In the selection of applicants, the Client will place emphasis on whether the applicant has the sufficient economic and financial capacity to perform the agreement. The applicant must, as a minimum, meet the following requirements:

- Revenue within the area of the agreement (most recent financial year) must be DKK 100 million or more.
- Average solvency ratios of the three most recent financial years available must be 20% or more.
- The tenderer must have at least 100 employees.

If the applicant has not existed as a company for a period of three years, key figures for the period of time in which the applicant has existed as a company must be provided. The minimum requirements will only apply for the period of time in which the applicant has existed as a company.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

The minimum requirements to participate for the technical and professional capabilities of tenderers are:

References

For the evaluation of technical and professional capabilities, the applicant must state in the ESPD the applicant's significant deliverables in/under similar projects/agreements that are performed within the past five years. The applicant can enclose reference sheets or similar annexes that describe and illustrate such references, but reference must be made to the ESPD.

Ongoing references may be used only for the deliverables that have been completed and this includes also the value of services already performed.

The applicant must be able to demonstrate at least 2 references for Carbon Capture projects within each of the following three categories:

- Kat. 1 - Post combustion carbon capture plants.

References larger than 150.000 t CO₂/year will be evaluated positively and experience with waste to energy plants will also be evaluated positively. Heat recovery from preceding plants delivered to a district heating system will be evaluated positively.

- Kat. 2 - Compressing, liquefaction, intermediate storing and handling of CO₂.

References larger than 80.000 t/year will be evaluated positively.

- Kat. 3- Building and construction references.

References in connection with erection of processing plants will be evaluated positively.

A single reference may contain more than one of the above categories, thus covering one or more categories as mentioned above.

For each of the above reference categories, tenderers are advised to provide the following information in the list of references:

I. Specification of which category or categories the reference concerns

II. The name of the entity in the reference

III. The period in which the project was performed

IV. The roles that the applicant carried out in the project

V. The economic size of the reference performed by the applicant.

III.1.4. Objective rules and criteria for participation

List and brief description of rules and criteria:

For associations (e.g. a consortium), the solvency ratio of the association are calculated as the value of the association's combined equity relative to the combined assets of the association, expressed in percentage terms.

If the applicant relies on the economic capability of other associations, the Client will calculate the applicant's solvency ratio as the value of the equity of the applicant and such other associations combined relative to their combined assets, expressed in percentages.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Negotiated procedure with prior call for competition

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with several operators
Envisaged maximum number of participants to the framework agreement: 2

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 24/10/2023 Local time: 13:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

Date: 27/10/2023

IV.2.4. Languages in which tenders or requests to participate may be submitted

Danish, English

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Tender must be valid until: 24/05/2024

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Klagenævnet for Udbud

Postal address: Nævnenes Hus, Toldboden 2

Town: Viborg

Postal code: 8800

Country: Denmark

E-mail: klfu@naevneshus.dk

Telephone: +45 72405600

Internet address: <https://naevneshus.dk/start-din-klage/klagenaevnet-for-udbud/>

VI.4.2. Body responsible for mediation procedures

Official name: NN

Town: NN

Country: Denmark

VI.4.3. Review procedure

Precise information on deadline(s) for review procedures:

Complaints about the tender procedure must be submitted to the Klagenævnet for udbud in accordance with section 7 of Executive Order no. 593 of 2 June 2016 of the Act on the Klagenævnet for udbud, as follows:

Complaints about not having been pre-qualified must be received by the Klagenævnet within 20 calendar days from the day after the contracting authority's notification of who has been pre-qualified, if the notification states a brief explanation of the relevant reasons for the decision. Other complaints must be received by the Klagenævnet within 45 days from the day after the publication of the contracting authority's notice in the Official Journal of the European Union that the contracting authority has entered into a contract.

Complaints in connection with the conclusion of a framework agreement must be submitted within 6 months from the day after the day on which the contracting authority has notified the affected candidates and tenderers.

At the latest at the same time as submitting a complaint to the Klagenævnet for udbud, complainants must notify the contracting authority in writing of the complaint lodged with the Klagenævnet for udbud and of whether the complaint has been submitted during the standstill period. If the complaint has not been submitted during the standstill period, the complainant must also state whether a suspensive effect of the complaint is requested. The complaint must be accompanied by a complaint fee of DKK 20,000.

See more about submitting complaints on Klagenævnet for udbud's website: www.klfu.dk

VI.4.4. Service from which information about the review procedure may be obtained

Official name: Konkurrence- og Forbrugerstyrelsen
