5.1.9. Selection criteria

Sources of selection criteria: Notice

Criterion: Enrolment in a trade register

Description of selection criterion: Tenderers shall be a legally established company, c.f. the tender documentation point 4.2.1. Documentation requirements: Norwegian companies:

Company Registration Certificate. Foreign companies: Proof that the company is registered in a trade or business register as prescribed by the law of the country where the company is established.

Criterion: Other economic or financial requirements

Description of selection criterion: Tenderers shall have sufficient economic and financial capacity to fulfil the contract, c.f. the tender documentation point 4.2.2. Documentation requirements: • The company's annual accounts or extracts thereof if the publication of the annual accounts is required in the country where the tenderer is established. NB: Norwegian companies obtain the contracting authority's annual financial statements from brreg.no. Foreign companies can refer to an equivalent place where the contracting authority can obtain the annual accounts without costs. or • The accounts' balance for the last three available fiscal years. This requirement only applies to companies where the publication of annual accounts is not required in the state where the company is established. • A statement of the company's total turnover for the maximum of the three last available fiscal years. The declaration can also apply to the turnover within the area that the contract applies if this information is relevant and available. This requirement only applies to companies where the publication of annual accounts is not required in the state where the company is established. and • Credit evaluation /rating, not older than 3 months, based on the last known accounting figures. NB: The contracting authority will obtain a credit rating from CreditSafe.

Criterion: Supply chain management

Description of selection criterion: Tenderers shall be suited to fulfil contract requirements for due diligence assessments for responsible businesses from the start of the contract, cf. the tender documentation point 4.2.4 This means that the Tenderer has implemented measures and systems that are used in the Tenderer's work to safeguard basic human rights and decent working conditions, as well as prevent environmental degradation and corruption.

Documentation requirements: A description of the tenderer's systems for working with due diligence assessments in accordance with the UN's guiding principles for business and human rights (UNGP) and OECD's guidelines for multinational companies. The documentation shall include: * Formal policies/policies that cover an obligation to comply with the requirements of responsible businesses. * Formal policy/guidelines for accountability for sub-suppliers/the supplier chain, (Supplier Code of Conduct). This shall only be provided if sub-suppliers are used. * Descriptions of the tenderer's processes and routines for how the company works with due diligence assessments. * Description of how the tenderer will obtain and maintain an overview of the country of origin and production locations for the products the tenderer offers. This shall only be delivered if the procurement includes goods.

Criterion: References on specified deliveries

Description of selection criterion: Experience with snow clearing and spring cleaning of equivalent area traps (minimum 50,000 m²), cf. the tender documentation point 4.2.3, is required. Documentation requirements: An overview of the most important services that the tenderer has carried out in the last 3 years, together with information on the contracts' value, date of execution and the name of the recipient.

5.1.10. Award criteria

Criterion:

Type: Price

Description: Price

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 100

Criterion:

Type: Quality

Description: The starting point is that the contracting authority in the notice obliged procurements that weight the award criteria, shall weight climate and environmental considerations with a minimum of 30%. If the contracting authority sets the award criteria in prioritised order, climate and environment considerations should be among the three highest prioritised. The award criteria can be replaced or combined with climate and environmental requirements in the requirement specification, if this gives a better climate and environmental effect, and this is justified in the procurement documents, cf. FFO § 7-9 second paragraph. If climate and environmental considerations are not used as the award criterion in accordance with § 7-9 second paragraph, the contracting authority can also choose tender offers on the basis of the lowest price or the lowest cost, cf. FFO § 14-1 first paragraph. In this procurement it is chosen to replace the award criteria with climate and environmental requirements in the contract. The contract will be awarded on the basis of which tender has the lowest price. In accordance with Oslo municipality's standard climate and environmental requirements for transport, the tenderer is basically obliged to use only machines and vehicles, which are either emission free (i.e. 100% battery electrical or hydrogen) or biogas operated and which as a minimum fulfil Euroclass 6/VI in the execution of the contract. The requirement applies for both the last transport stretch (cargo mile) to the contracting authority's locations and for operation at the locations. Based on an immature market, it is considered most appropriate to set minimum requirements for the use of bio-fuel in connection with the execution of winter

operation and sweeping in this procurement. The use of bio-fuels is assessed as unproblematic and it creates a significant reduction in greenhouse gas emissions compared to fossil fuels. Other machines and vehicles shall be emission free or biogas based.
