European institution/agency or international organisation

I.5. Main activity

Other activity: Financing Nordic energy-related research and development projects

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

Impact assessment of emergency market intervention measures to tackle high energy prices

Reference number: 3003

II.1.2. Main CPV code

73000000 Research and development services and related consultancy services

II.1.3. Type of contract

Services

II.1.4. Short description

The aim of the project is to assess the Nordic countries adaption/planned implementation of measures which refer to the measures included in the proposal of the Council's regulation on emergency measures to meet high energy prices» (EU, 14th of September 2022). The study includes Finland, Norway, Denmark, and Sweden. For the assessments, it must be considered how the market stakeholders and end-consumers have reacted to the emergency measures and the impacts on the electricity market, and how these measures will impact the Nordic electricity market. This encompasses e.g., measures that result in decreased electricity consumption by 5% for peak-load situations and proposals regarding a cap on the market incomes from the production of electricity from a «inframarginal technology» (e.g., wind, solar, geothermal energy, nuclear power, biomass, oil, and oil-related products, hydropower without reservoir etc.)

II.1.5. Estimated total value

Value excluding VAT: 446 250,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: NO Norge

II.2.4. Description of the procurement

The aim of the project is to assess the Nordic countries adaption/planned implementation of measures which refer to the measures included in the proposal of the Council's regulation on emergency measures to meet high energy prices» (EU, 14th of September 2022). The study includes Finland, Norway, Denmark, and Sweden. For the assessments, it must be considered how the market stakeholders and end-consumers have reacted to the emergency measures and the impacts on the electricity market, and how these measures will impact the Nordic electricity market. This encompasses e.g., measures that result in decreased electricity consumption by 5% for peak-load situations and proposals regarding a cap on the market incomes from the production of electricity from a «inframarginal technology» (e.g., wind, solar, geothermal energy, nuclear power, biomass, oil, and oil-related products, hydropower without reservoir etc.)

II.2.5. Award criteria
