2. Procedure

2.1. Procedure

Title: 1-BYM-2026 Framework agreement for outdoor installation of lighting and other electrical installations.

Description: Oslo municipality c/o the Agency for Urban Environment (henceforth referred to as the Contracting Authority) is responsible for administering, operating and developing municipal urban areas in Oslo, including roads, streets, cycle paths and footpaths, parks, recreational areas, sports and outdoor recreation facilities, as well as areas in Marka and Inner Oslofjord. The agency shall ensure clean, safe and available urban areas with good maintenance, lighting and waste management. The Agency for Urban Environment's aim is to make Oslo a safe, beautiful, green and active city for everyone. The contracting authority shall enter into parallel framework agreements for outdoor installations or lighting and other electrical installations, with two to three tenderers provided that we have enough qualified tenderers. The framework agreement shall replace the current equivalent framework agreement, which expires 28.11.2026. The framework agreement shall cover the need for outdoor installation of lighting and other electrical installations, when upgrading the existing installations and the establishment of new installations. The contractual works shall include electrical services, primarily for lighting installations (light fixtures and control system). The framework agreement shall also cover other electrical disciplines such as arrangement current, development of infrastructure and assembly of lighting fixtures, including lighting of streets, squares and meeting places, parks, green areas and sports facilities as well as lighting in the fields. The framework agreement shall cover the delivery of individual goods, including masts and foundations. Other departments, companies and the city districts in Oslo municipality shall be able to use the framework agreement. In cases where this will be relevant, call-offs will be carried out by the Contracting Authority. All services that are performed under the framework agreement shall be carried out within oslo municipality's border as well as areas in the countryside and inner Oslofjord, which are administered by Oslo municipality. The framework agreement is non-exclusive, which means that the Contracting Authority is therefore free to procure equivalent services from other suppliers. The tenderers will be obliged to deliver in accordance with the contract. Reorganisations in Oslo municipality can occur during the contract period and can affect the responsibility for the management assignments for the Contracting Authority. It can affect which department, company and/or city

district in Oslo municipality will be the Contracting Authority during the contract period. The contract has an annual estimated value of up to NOK 30 million. The contracting authority draws attention to the fact that the estimate is based on previous consumption and the expected future need. The estimate is only a guideline and is without obligation for the Contracting Authority. The scope and volume can be changed during the contract period and it is dependent on, among other things, budget resources. The framework agreement is limited to the operational contracts and shall not cover ongoing operational assignments. The contract period for the framework agreement is up to four years from the start up. The tentative start date is 1.12.2026. Further date will be stated in the framework agreement. The maximum value for all call-offs on the framework agreement is NOK 120 million. Contract works that shall be carried out through call-offs on the framework agreement will be seen as services and the contractual relationship will be regulated by the Standard Contract Terms for Oslo municipality's procurement of trade services with any supplements and changes that appear in the contract form for Oslo municipality's procurement of trade services. The provisions will be supplemented with the Contracting Authority's specification of the assignment for each call-off and the tenderer's response/tender. The length of the call-offs will be determined for each individual call-off. Call-off agreement may expire after the contract period for the framework agreement has expired. See all the annexes in the tender management tool (KGV) for further details on the deliveries and requirements in the framework agreement.

5.1.9. Selection criteria

Sources of selection criteria: Notice

Criterion: Enrolment in a trade register

Description of selection criterion: The tenderer shall be a legally established company.

Documentation requirements: Norwegian companies: Company Registration Certificate

Foreign companies: Proof that the company is registered in a trade or business register as prescribed by the law of the country where the company is established.

Criterion: Enrolment in a relevant professional register

Description of selection criterion: Tenderers shall be certified for electrical enterprises, certification by DSB. Documentation requirements: The contracting authority will check this on the homepage of DSB (certified electrical company register as a company, contractor).

Criterion: Other economic or financial requirements

Description of selection criterion: The tenderer shall have sufficient economic and financial capacity to be able to fulfil the contract. Documentation requirements: The contracting authority will obtain a credit rating from Bisnode. If the tenderer has a justifiable reason (e.g. a recently started company) for not submitting the documentation that the Contracting Authority has required, he can document its economic and financial capacity with any other document that the Contracting Authority deems suitable.

Criterion: References on specified services

Description of selection criterion: Experience: The tenderer shall have experience from relevant assignments. Relevant assignments mean experience with outdoor installations of street lights and experience with electrical installations in densely populated areas and high congested roads with public transport with complex infrastructure in the ground.

Documentation requirements: Description of the most important relevant deliveries /assignments in the last five years. Including information on the contract's value, date of delivery as well as the name of the contracting authority and a description of the content of the assignment as well as the tenderer's role in the assignment.

Criterion: Average yearly manpower

Description of selection criterion: Capacity and competence: The tenderer shall have sufficient capacity and competence to carry out the assignments described in the contract documents. The tenderer must, as a minimum, have: Two project managers with certificates of apprenticeship within electro, technical vocational college or other relevant electrical education and experience from street lighting installations in busy streets with complex infrastructure. Speaks and writes Norwegian. Eight installers with a certificate of apprenticeship for electro

disciplines. At least four of these installers shall have approved access to Elvia's installations.
Documentation requirements:

Criterion: Measures for ensuring quality

Description of selection criterion: Tenderers shall have a relevant quality assurance system for the content of the contract. Documentation requirements: A description of the tenderer's quality assurance system. Alternatively: Certificate for the company's quality assurance system issued by independent bodies that confirms the tenderer fulfils certain quality assurance standards, for example ISO 9001:2015.

Criterion: Environmental management measures

Description of selection criterion: Tenderers are required to have implemented environmental management measures that ensure that the tenderer is suitable to fulfil the contract's environmental provisions. This means that the tenderer has methods for working actively and systematically to reduce negative environmental impact from activities connected to the execution of this contract. Documentation requirements: A description of the tenderer's environmental management measures. If a tenderer has certificates from independent bodies that document the environmental management system, they can be presented as documentation. Refer to the EU Scheme for Environmental Management and Environmental Audit (EMAS), other recognised environmental management systems in regulation (EF) no. 1221/2009 article 45, or equivalent, and other environmental management standards based on relevant European or international standards from accredited bodies such as ISO 14001 or equivalent.

Criterion: Supply chain management

Description of selection criterion: Tenderers shall be suitable for fulfilment of contractual requirements for due diligence assessments for responsible businesses, see point 11 of the contract formula. This means that the Tenderer has implemented measures and systems that are used in the Tenderer's work to safeguard basic human rights and decent working conditions, as well as to prevent environmental degradation and corruption. Documentation requirements: A description of the tenderer's systems for working with due diligence assessments in accordance with the UN's guiding principles for business and human rights (UNGP) and OECD's guidelines for multinational companies. The documentation shall include: Formal policy/guidelines that cover an obligation to comply with the requirements of responsible business. A supplementary form for the qualification requirements, due diligence assessments.

5.1.10. Award criteria

Criterion:

Type: Price

Description: Evaluation price

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 70

Criterion:

Type: Quality

Description: Assignment comprehension. Tenderers shall demonstrate their assignment comprehension by replying to two cases that are sent with the tender. See the detailed description of what the Contracting Authority will emphasise in the evaluation in annex 5, '01-BYM-2026 Cases'

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 30

Criterion:

Type: Quality

Description: It is considered in this procurement that environmental effect is clearly achieved by setting climate and environmental requirements for transport as requirements in the requirement specifications, with reference to the contract terms than as the award criteria. In the area of transport, the climate and environmental impact can be significantly reduced through requirements. In this procurement there are contract requirements for the use of zero emission or biogas vehicles that, to a greater degree than the award criteria, will ensure a reduction of greenhouse gas emissions from transport in the contract period. The requirement is considered to a greater degree to ensure that the desired environmental effect is achieved, as the requirements are obligatory as opposed to the award criteria. Furthermore, it is considered that the use of climate and environmental requirements as the award criteria is not a guarantee that the tender with the best environmental gains will win.

Category of award weight criterion: Weight (percentage, exact)
