Country: Germany

E-mail: marion.chevalier@giz.de

Telephone: +49 6196794017

Fax: +49 619679804017

Internet address(es):

Main address: <https://www.giz.de>

I.4. Type of the contracting authority

Other type: Legal person governed by private law (gemeinnützige GmbH), wholly owned by the Federal Republic of Germany

I.5. Main activity

Other activity: International Development Cooperation

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

81296402-Développement et mise en ?uvre de formations en Energies Renouvelables et

Efficacité Energétique en Côte d'Ivoire

Reference number: 81296402

II.1.2. Main CPV code

71314000 Energy and related services

II.1.3. Type of contract

Services

II.1.4. Short description

The project "Market Development and Employment Promotion in the Renewable Energy and Energy Efficiency Sectors (ProFERE II)" is implemented in the framework of the "Climate and Development Partnership". It is part of a large intervention programme of the German Cooperation in Côte d'Ivoire. It is implemented in cooperation with the Ministry of Mines, Oil and Energy (MMPE) with the support of the Ministry of Economic Cooperation and

Development of the Federal Republic of Germany, which has mandated the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH to consult Ivorian institutions in the implementation. In addition to the parent ministry, ProFERE works in partnership with the Ministry of Technical Education, Vocational Training and Apprenticeship (METFPA), the Ministry of Higher Education and Scientific Research (MESRS) and the Ministry of the Environment and Sustainable Development (MINEDD).

ProFERE aims to develop institutional, financial and human capacities for the deployment of renewable energy and energy efficiency solutions, creating employment and contributing to the achievement of national climate objectives. After a first project phase (2019-2022) that focused on the development of specialized and qualified local RE/EE know-how, the second phase puts a stronger focus on strategies and actions that contribute to the development of the RE/EE market. The project is fully integrated into the MMPE's renewable energy and energy efficiency sector policy.

As such, the project is structured through the following outputs:

(1) Strengthening the institutional capacity of the MMPE and other government agencies to promote RE/EE solutions: This includes the capacity to set up and manage support programs, to mobilize international climate finance for these support programs and to implement and develop existing regulations.

(2) Strengthening the institutional and human capacities of private sector RE/EE associations: Output 2 is aimed at improving the provision of advice and training that private sector associations offer to their members to strengthen their capacities in the field of RE/EE. This includes both associations representing RE/EE solution providers and associations representing RE/EE users.

(3) Support to the follow-up of the measures for the energy sector mentioned in the NDCs of Côte d'Ivoire: Output 3 aims at improving the monitoring by the Ministry of Mines, Petroleum and Energy of the implementation of the measures mentioned in the energy chapter of the NDCs.

(4) Vocational Training, Higher Education and Labour Market Services: Output 4 is aimed at implementing qualification offers and labour market services oriented towards the needs of women and men in the field of RE and EE. In addition, in a labour market context where the demand for RE/EE specialists is increasing, dual approaches to initial and continuing training are particularly well suited to the needs of companies and employers.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 931 380,00 EUR

II.2. Description

II.2.2. Additional CPV code(s)

80000000 Education and training services

II.2.3. Place of performance

NUTS code: CI Côte D'Ivoire

Main site or place of performance: 00000 Ivory Coast

II.2.4. Description of the procurement

The contractor's mission is situated within the framework of the processes of Output 2 of the project, which aims to support business associations (from the RE/EE sector as well as from sectors requiring RE/EE technologies) in the implementation of training offers and Output 4 of

the project in the development of continuous and initial training for Vocational Training and Higher Education.

The contractor will build a team with technical expertise in the sector specific skills requests (Bioenergy and Energy Efficiency) as well as expertise in the implementation of training development processes following the competence-based approach and training of trainers. The contractor will be particularly responsible for ensuring the involvement of the different stakeholders to guarantee the development of quality training that fully corresponds to the needs of the private sector and particularly the different sub-sectors concerned. Through this approach it will contribute to strengthen the public-private dialogue through the involvement of business associations, partner universities and vocational training institutions and the relevant ministries (METFPA and MESRS). In addition to the criterion of training-job matching, the contractor will also be held responsible for developing practical training modules that correspond to real work situations.

In the framework of Output 4, the contractor will support the four partner universities (Université Felix Houphouët-Boigny, Université Nangui Abrogoua, Institut Polytechnique Felix Houphouët-Boigny and Université Virtuelle de Côte d'Ivoire) in the development of training modules that will be integrated into inter-university degree courses. In order to strengthen the employability potential of the training courses and to reinforce the public-private dialogue, it will accompany the university actors in the development of a pilot project for dual training. Finally, the contractor will be responsible for the transversal topic (Vocational Training and Higher Education) "Environmental Competences". The objective of this process is to develop training modules on "Environmental Competences" that can be adapted for different degrees and target groups.

The processes under Output 4 are summarized as follows

- 1) Development of training modules in the fields of Bioenergy, Energy Efficiency and Environmental Competences (Vocational Training and Higher Education)
- 2) Development and implementation of Training of Trainers in the fields of Biomass, Energy Efficiency and Environmental Skills (Vocational Training and Higher Education)
- 3) Development and support to the implementation of a pilot project for dual training in the fields of renewable energy and energy efficiency (Vocational Education and Training)

Under Output 2, the contractor's task is to support business associations in developing a training offer. This includes the development of training modules, the training of trainers and the support of trainers in the deployment of training.

These activities will be addressed to the Ivorian Federation of Energy Efficiency, Renewable Energy and Climate Associations (FIACER) representing companies offering RE/EE solutions and services, as well as to associations representing potential users of RE/EE solutions (transport, mining, health, construction). The training contents will be based on the training contents developed within Output 4 and adapted accordingly to each specific sector.

The processes under Output 2 can be summarized as follows

- 4) Supporting FIACER in the development and implementation of 04 training offers
- 5) Development of training formats for 04 business associations requesting RE/EE technologies

II.2.5. Award criteria

Quality criterion - Name: Technical Assessment / Weighting: 70

Price - Weighting: 30.00

II.2.11. Information about options

Options: yes

Description of options:

GIZ may optionally commission contract amendments and/or increases based on the criteria in the tender documents to the successful bidder of this tender. For details, please see the terms of reference.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Competitive procedure with negotiation

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2023/S 101-313272](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a prior information notice

Section V: Award of contract

Contract No: 1

Title:

Auftragsvergabe ECO Consult GmbH & Co KG

A contract/lot is awarded: yes

V.2. Award of contract

V.2.1. Date of conclusion of the contract

04/10/2023

V.2.2. Information about tenders

Number of tenders received: 4

Number of tenders received from tenderers from other EU Member States: 1

Number of tenders received from tenderers from non-EU Member States: 0

Number of tenders received by electronic means: 4

The contract has been awarded to a group of economic operators: no

V.2.3. Name and address of the contractor

Official name: ECO Consult GmbH & Co KG

Postal address: Hersfelder Str. 17
Town: Oberaula
NUTS code: DE735 Schwalm-Eder-Kreis
Postal code: 36280
Country: Germany
E-mail: doris.steinert@eco-consult.com
The contractor is an SME: yes

V.2.4. Information on value of the contract/lot

Total value of the contract/lot: 931 380,00 EUR

V.2.5. Information about subcontracting

Section VI: Complementary information

VI.3. Additional information

Bekanntmachungs-ID: CXTRYY6Y1CZ1C9QN

VI.4. Procedures for review

VI.4.1. Review body

Official name: Die Vergabekammern des Bundes
Postal address: Villemombler Straße 76
Town: Bonn
Postal code: 53123
Country: Germany
E-mail: vk@bundeskartellamt.bund.de
Telephone: +49 2289499-0
Fax: +49 2289499-163
Internet address: <https://www.bundeskartellamt.de>

VI.4.3. Review procedure

Precise information on deadline(s) for review procedures:
According to Article 160, Section 3 of the German Act Against Restraint of Competition (GWB), application for review is not permissible insofar as

1. the applicant has identified the claimed infringement of the procurement rules before submitting the application for review and has not submitted a complaint to the contracting authority within a period of 10 calendar days; the expiry of the period pursuant to Article 134, Section 2 remains unaffected,
2. complaints of infringements of procurement rules that are evident in the tender notice are not submitted to the contracting authority at the latest by the expiry of the deadline for the application or by the deadline for the submission of bids, specified in the tender notice.
3. complaints of infringements of procurement rules that first become evident in the tender documents are not submitted to the contracting authority at the latest by the expiry of the deadline for application or by the deadline for the submission of bids,
4. more than 15 calendar days have expired since receipt of notification from the contracting authority that it is unwilling to redress the complaint.

Sentence 1 does not apply in the case of an application to determine the invalidity of the contract in accordance with Article 135, Section 1 (2). Article 134, Section 1, Sentence 2 remains unaffected.
