## **6. Results**

---

Maximum value of the framework agreements in this notice: 350 000,00 EUR

### **Direct award**

:

Justification for direct award: The contract can be provided only by a particular economic operator because of an absence of competition for technical reasons

Other justification: LMR laboratory is accredited to ISO 17025 and almost the entire set of methods is based on the use of TRISKEM resins. LMR is in charge of the environmental monitoring network: this, as a legal obligation, must be accomplished using reference and,

possibly, accredited methods. Changing the methods would implicate the loss of the methods accreditation and the use of less effective and modern chemicals, resulting in the end in a huge increase of the overall cost without taking advantages of any technical benefits.
