71240000 Architectural, engineering and planning services, 71300000 Engineering services

II.2.3. Place of performance

NUTS code: NO0A2 Vestland

Main site or place of performance: Bergen

II.2.4. Description of the procurement

Bergen Courthouse is a monumental building from 1933 designed by the architect Egil Reimers, and it takes up a block at Tårnplassen. The building is dilapidated and not very functional. A rehabilitated and reconstructed courthouse will contribute to more efficient case proceedings and increased security for the users and the employees in the courthouse. The building is approximately 13,000 m² GFA spread over six floors plus basement and loft. The building is protected through regulations in accordance with kulturminneloven (the Cultural Memorial Act) of 18.11.2014, amendments of 30.9.2021. The preservation includes both the exterior, parts of the interior, as well as customized furniture and loose fixtures.

On behalf of the Ministry of Justice and Public Security, Statsbygg carried out a preliminary project for the renovation and reconstruction of Bergen Courthouse in collaboration with HENT AS, in the period 2021-2023.

The assignment concerns the contract K201 in the partnering phase 2 (detailed engineering design and implementation). The existing courthouse subject to reconstruction and renovation is to some extent complex, and Statsbygg therefore needs to strengthen the project team with more positions in the project management.

Position: Adviser, calculation

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system
