5.1.9. Selection criteria

Sources of selection criteria: Notice
Criterion: Enrolment in a trade register
Description of selection criterion: Tenderers shall be a legally established company and they must have fulfilled their tax and duty obligations. Documentation requirements: Company Registration Certificate Tax and VAT certificate (maximum 6 months from the deadline for receipt of tenders)

Criterion: Other economic or financial requirements
Description of selection criterion: Tenderers shall be credit worthy without a requirement for provision of security. Documentation requirements: Credit rating from a certified institution.

Criterion: Environmental management measures
Description of selection criterion: Tenderers shall offer reporting that supports the municipality´s climate and environmental monitoring. The reporting shall as a minimum include: · energy mix · CO# factor · guarantees of origin (if the municipality chooses to purchase such) · climate related documentation for the delivery. Documentation requirements: When submitting a tender, the tenderer shall document the following: * Energy mix: Verifiable documentation showing the distribution of energy sources in the tenderer's portfolio (e.g. hydropower, wind power, thermal power). The documentation shall be based on the actual portfolio and updated data. * CO# factor: Stated CO# intensity (g/kWh) for the delivered energy mix, based on the tenderer's climate data or third-party verified environmental reports. * Guarantees of origin (if purchased): If the municipality procures guarantees of origin, the tenderer shall document the type, volume, country of production and certificate number. The documentation shall be traceable and in accordance with the current GO standard. * Climate related documentation:

Relevant environmental declarations, climate accounts, reporting in accordance with GHG-protocol Scope 2 or equivalent. The documentation shall be verifiable and connected to the actual delivery.

Criterion: Security of supply
Description of selection criterion: Tenderers shall have established and documented routines for: · stand-by organisation · continuity planning · notification routines · event handlers * exercises and test regimes Referral to the award criteria The documentation that is submitted under this qualification requirement will also be a basis for the evaluation of the award criteria "Security and stand-by", which is described in the Tender documentation chapter 8. Tenderers shall therefore give a description that is sufficiently detailed so that quality, maturity and robustness can be assessed in accordance with the points scale in the chapter Award Criteria. Documentation requirement Tenderers shall describe their stand-by and continuity routines with sufficient degree of detail for the contracting authority to assess both whether the requirements are met and the quality of the systems. Documentation requirements: Tenderers shall describe their stand-by and continuity routines with sufficient degree of detail for the contracting authority to assess both whether the requirements are met and the quality of the systems.

Criterion: References on specified deliveries
Description of selection criterion: Minimum three references from comparable* deliveries in the last three years. * Comparable delivery means the delivery of electricity to commercial customers, municipalities, public entities or other major entities with equivalent complexity, volume or number of measuring points as this procurement. Documentation requirements: Minimum three references where the following information is provided; * Customer * Contact person * Contract period * Annual volume * Number of measuring points * brief description of the delivery

Criterion: Subcontracting proportion
Description of selection criterion: If the tenderer uses sub-suppliers to fulfil the contract, the tenderer will be fully responsible for the sub-suppliers' services in the same way as for their own services. C.f. the Tender documentation chapter 4.6 regarding documentation requirements by using sub-suppliers. Documentation requirements: If a tenderer will use sub-suppliers´ capacity to fulfil the qualification requirements, it must be enclosed: · commitment statement · or other documentation that shows that the tenderer can use the necessary resources in the contract period.

5.1.10. Award criteria

Criterion:
Type: Price
Description: Price
Category of award weight criterion: Weight (percentage, exact)
Award criterion number: 85

Criterion:
Type: Quality
Description: Security and stand-by
Category of award weight criterion: Weight (percentage, exact)
Award criterion number: 15

Criterion:
Type: Quality

Description: The contracting authority safeguards climate and environmental considerations through minimum requirements set out in the qualification criteria and the technical specifications. Requirements for documented energy mix, climate data and guarantees of origin are included where relevant. Climate and environment are therefore not used as an award criterion. The contracting authority has chosen to use requirements rather than award criteria because this provides a better and more predictable climate effect in the power market, where all suppliers operate within the same Nordic power system and award criteria do not result in any real difference in climate outcomes. This approach is in accordance with point 6.1 of DFØ's guideline.
