

France-Paris La Défense: Miscellaneous structures
OJ S 203/2023 20/10/2023
Contract notice – utilities
Supplies

Legal Basis:

Directive 2014/25/EU

Section I: Contracting entity

I.1. Name and addresses

Official name: EDF Renouvelables

Postal address: Cœur Défense - Tour B 100, esplanade du Général de Gaulle Paris La Défense Cedex

Town: Paris La Défense

NUTS code: FR105 Hauts-de-Seine

Postal code: 92932

Country: France

Contact person: Procurement Manager

E-mail: Alexandre.Deparis@edf-re.fr

Internet address(es):

Main address: <http://www.edf-renouvelables.com>

Address of the buyer profile: <https://pha2.edf.com/>

I.3. Communication

Access to the procurement documents is restricted. Further information can be obtained at:

<https://pha2.edf.com>

Additional information can be obtained from the abovementioned address

Tenders or requests to participate must be submitted electronically via: <https://pha2.edf.com>

Tenders or requests to participate must be submitted to the abovementioned address

I.6. Main activity

Electricity

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Framework agreement for the supply of PV structures

II.1.2. Main CPV code

44212320 Miscellaneous structures

II.1.3. Type of contract

Supplies

II.1.4. Short description

EDF Renouvelables launches a global tender for contracting a framework agreement to supply photovoltaic structures to be used for solar projects in France.

II.1.5. Estimated total value

Value excluding VAT: 150 000 000,00 EUR

II.1.6. Information about lots

This contract is divided into lots: yes

Tenders may be submitted for all lots

Maximum number of lots that may be awarded to one tenderer: 1

II.2. Description

II.2.1. Title

Framework agreement for the supply of PV structures

Lot No: 1

II.2.2. Additional CPV code(s)

44212320 Miscellaneous structures

II.2.3. Place of performance

NUTS code: FR France

Main site or place of performance: France

II.2.4. Description of the procurement

The procurement will consist in the following scope of supply :

- Structure and foundation - Design & Engineering
- Manufacturing and supply of steel structures, for the installation of photovoltaic modules, to be delivered in France between Q3 2024 and Q2 2027.
- Supply shall include structures compliant with applied regulation.

More details is available on <https://pha2.edf.com/> AVIS005783

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 57 000 000,00 EUR

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/05/2024 End: 31/05/2027

This contract is subject to renewal: yes

Description of renewals:

Option for a 12 month renewal

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged minimum number: 4Maximum number: 50

II.2.10. Information about variants

Variants will be accepted: yes

II.2.11. Information about options

Options: yes

Description of options:

- Option for additional annual quantity above base quantity.
- Option for a 12 month renewal

The following options could be quoted separately:

- pull-out tests
- Structures Installation
- Structure foundations
- Modules installation

A part of the scope could be optional which would be described in the tender

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Applications must be submitted electronically via AVIS005783 through the EDF Renouvelables purchasing platform, called the Purchasing Portal, accessible via this link: <https://pha2.edf.com/>
In order to be able to access the purchasing portal and to apply for it, the candidate will have to register in advance on the platform.

II.2. Description

II.2.1. Title

Framework agreement for the supply of PV Structures
Lot No: 2

II.2.2. Additional CPV code(s)

44212320 Miscellaneous structures

II.2.3. Place of performance

NUTS code: FR France
Main site or place of performance: France

II.2.4. Description of the procurement

The procurement will consist in the following scope of supply :
- Structure and foundation - Design & Engineering
- Manufacturing and supply of steel structures, for the installation of photovoltaic modules, to be delivered in France between 2024 and 2026.
- Supply shall include structures compliant with applied regulation.
More details is available on <https://pha2.edf.com/> AVIS005783

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 44 000 000,00 EUR

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/05/2024 End: 31/05/2027
This contract is subject to renewal: yes
Description of renewals:
Option for a 12 month renewal

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged minimum number: 4Maximum number: 50

II.2.10.

Information about variants

Variants will be accepted: yes

II.2.11. Information about options

Options: yes

Description of options:

- Option for additional annual quantity above base quantity.
- Option for a 12 month renewal

The following options could be quoted separately:

- pull-out tests
- Structures Installation
- Structure foundations
- Modules installation

A part of the scope could be optional which would be described in the tender

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Applications must be submitted electronically via AVIS005783 through the EDF Renouvelables purchasing platform, called the Purchasing Portal, accessible via this link: <https://pha2.edf.com/>
In order to be able to access the purchasing portal and to apply for it, the candidate will have to register in advance on the platform.

II.2. Description

II.2.1. Title

Framework agreement for the supply of PV Structures
Lot No: 3

II.2.2. Additional CPV code(s)

44212320 Miscellaneous structures

II.2.3. Place of performance

NUTS code: FR France

Main site or place of performance: France

II.2.4. Description of the procurement

In order to be able to access the purchasing portal and to apply for it, the candidate will have to register in advance on the platform.

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

The candidate (either a company or a consortium) cannot bid if they have been subject to the cases mentioned in articles L2141-1 to L2141-11 of the French Public Order Code.

The candidate undertakes to report any change of situation in accordance with Article L2141-12 of the French Public Order Code.

The candidate must comply with articles L. 5212-1 to L. 5212-11 of the French Labor Code concerning the employment of disabled workers.

Only companies or consortium that have submitted the following documents may bid:

- a consortium agreement duly completed if several candidates wish to present themselves and specifying the services or supply to be performed by each member of the consortium, based on the EDF Renouvelables template communicated on the EDF purchasing portal;
- a dated and signed honor statement provided by the company or each member of the consortium, based on the EDF Renouvelables template communicated on the EDF purchasing portal;
- a K-Bis extract of less than six (6) months or company registration certificate from the applicant establishment or each establishment in the consortium;
- a certificate of social declarations and payment of contributions from the company or each member of the consortium;
- a certificate of fiscal regularity from the company or each member of the consortium;
- a valid certificate of civil liability insurance from the company or each member of the consortium;
- the EDF compliance questionnaire duly completed, dated and signed by the company or by each member of the consortium, based on the EDF Renouvelables template communicated on the EDF purchasing portal.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

All evidences expected are mandatory. If not provided, the candidate application shall not be considered.

- Financial statements for the last two (2) years;
- If the candidate cannot share its financial statements, it needs to share its parents company's one and provide a parent company guarantee.

Minimum level(s) of standards possibly required:

The average turnover of the candidate for the last two years shall be equal to or above twice the expected annual turnover for the LOT considered.

The financial criteria will be applied to each lot.

For example: if the candidate does not pass the financial criteria for lots 1 and 2, it will automatically be considered for lots 3 and 4 only.

The company or each member of the consortium must submit a presentation of its structure, its organization, and in case of a subsidiary, must indicate the name of its parent company and its share.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Candidates must be able to prove that:

- they have sufficient and operational production capacity for at least a 50 MW production per year. A clarification shall be made on the possession of an in-house production tool or not.
- they have a listed track record with documented and detailed information about the scope performed in relation with the design, supply, delivery and installation of PV structures for the last 4 years (including project name, installed power capacity, location, end client, type of PV structures);
- They are either (i) certified NF EN ISO 9001 (or equivalent) or (ii) at least under the process of certification with documented evidence provided by the candidate;

- They are either (i) certified NF EN ISO 14001 (or equivalent) or (ii) at least under process of certification with documented evidence provided by the candidate;
- They have its own human resources in order not to subcontract more than 30% of the scope of supply. A dated and signed honor statement and a subcontracting list (if any) shall be provided;
- They have sufficient resources (human, technical, financial) in order to provide the equipment and perform engineering of PV structures. A minimum 3 pages report shall be provided;
- They have the capacity to read, write and understand French and/or English language (in the following fields : commercial, engineering, technical support). A dated and signed honor statement shall be provided;
- They have the capacity to perform engineering and detailed design of PV fixed structures in-house without using any subcontracting. A dated and signed honor statement shall be provided;
- For installation of PV structures, they have the capacity to deliver a 10-years guarantee. A dated and signed honor statement shall be provided and/or a valid insurance liability certificate mentioning the 10-years warranty period coverage.

III.1.4. Objective rules and criteria for participation

List and brief description of rules and criteria:

Suppliers respond to all lots and will be awarded in multi-criteria ranking order. EDF

Renouvelables will award one lot per supplier

Financial criteria will be applied to each lot.

III.1.6. Deposits and guarantees required

The conditions relating to financial guarantees will be presented in the administrative and specific clauses, however, EDF Renouvelables reserves the right to ask for the following guarantees:

1/ Deposit refund bank guarantee covering the amount of the down payment that would eventually be paid to the candidate at the signing of the contract. This bank guarantee must be issued by institution / bank approved by EDF Renouvelables.

2/ Parent company guarantee. However, if the candidate is not a subsidiary or the parent company is not in the ability to deliver a parent company guarantee, the candidate must provide a bank guarantee issued by a school / institution / bank approved by EDF Renouvelables. The candidate and the institution issuing the bank guarantee must regularly provide an update of their accounts and financial reports until the end of the guarantee period.

III.1.7. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

Financing from own resources- Payment under 45 days end of month or within 60 days net.

III.1.8. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

Candidates may be either single companies or consortium.

In case the candidate is a consortium, a consortium agreement or a project of consortium agreement shall be provided. The consortium shall be jointly and severally liable or with a jointly liable leader.

Conditions described from III.1.1 to III.1.3 should apply to each member of the consortium

A candidate that submit an offer as member of a consortium or a joint-venture, may not submit an offer as single company or with another consortium or joint-venture.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

For production as well as for installation part, only subcontracting of rank 2 is allowed. If structure fabrication is subcontracted, contractor bears the guarantee on the design and production.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Negotiated procedure with prior call for competition

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with several operators Envisaged maximum number of participants to the framework agreement: 4

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2023/S 144-460724](#)

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 13/11/2023 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

Date: 20/11/2023

IV.2.4. Languages in which tenders or requests to participate may be submitted

English, French

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 6 (from the date stated for receipt of tender)

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.3. Additional information

Applicants must express their interest in this contract notice by logging on to the Purchasing Portal ([https:// pha2.edf.com/](https://pha2.edf.com/)) and accessing the AVIS005783 information request, as well as, where appropriate, other relevant terms and conditions. Any supplier can register on the Internet page: <https://pha2.edf.com/>. To register, the supplier has to fill in a questionnaire.

Fields followed by * are mandatory an identification number is required:

- For EU suppliers, the intra-community VAT number is mandatory.

- For suppliers outside European Union, the national identification number (or DUNS number) is mandatory.

- For French suppliers (except non-profit organizations), the SIRET number is mandatory

Suppliers have to enter a main contact. By default, this contact will be registered as the administrator of the supplier's record.

As soon as practical after receipt of any request for clarification through the Purchasing Portal AVIS005783, EDF Renouvelables shall respond through the Purchasing Portal mailbox. EDF Renouvelables' response (including an explanation of the request but without identifying the source of the enquiry) may be sent, as the case may be, to all candidates.

If you have any difficulties to access the Purchasing Portal, please contact the helped whom will provide technical support.

The contact details are on the homepage of the Purchasing Portal: <https://pha2.edf.com/> .

This contract notice cancels and replaces the contract notice with reference [2023/S 144-460724](#) - Framework agreement for the supply of PV structures published in Official Journal of the European Union on July 25th, 2023, which conditions have been updated as follows: Section III.1.2) The financial ability criteria have been changed and limited to the last two (2) years (instead of the last three (3) years). The minimum financial capacity has also been changed to consider an average turnover equal to or above twice the expected annual turnover for the LOT considered.

Section III.1.3) The technical and professional ability criteria have been changed to integrate past experience of candidates in relation to design, supply, delivery and installation of PV fixed structures. The criteria in relation to NF EN ISO 9001 and NF EN ISO 14001 certificates have been changed to include an on-going process of ISO certification (both ISO 9001 and ISO 14001) with documented evidence to be provided by the candidate. The requirements in relation to engineering and design conception have also been changed and limited to the capacity of performing engineering in-house for the PV fixed structures (engineering of foundation design being not included). For the installation of PV structures, requirements have been changed and include the submission of either (i) a dated and signed honor statement confirming the capacity of the candidate to deliver a ten-years guarantee, and/or (ii) a valid insurance liability with the mention of ten-years liability insurance for PV fixed structures.
