This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: NO074 Troms og Finnmark

II.2.4. Description of the procurement

The instruments must measure vertical profiles of seawater currents (speed and direction). The instruments must be equipped with a temperature and pressure sensor. They also ought to be able to include a bottom tracing or ice tracing module. ADCPs with a short range and an extra vertical beam for high resolution turbulence measurements and/or alternatives for measuring wave height and direction and/or the depth and drifting of sea ice will be of interest for certain purposes. The ADCPs will normally be used for one to three year placements.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value
