5.1.9. Selection criteria

Sources of selection criteria: Notice

Criterion: Enrolment in a trade register

Description of selection criterion: The tenderer shall be a legally established company.

Documentation requirements: Norwegian companies: Company Registration Certificate.

Foreign companies: Proof that the company is registered in a trade or business register as prescribed by the law of the country where the company is established.

Criterion: Other economic or financial requirements

Description of selection criterion: Tenderers shall have good economic and financial capacity to be able to fulfil the contract. Documentation requirements: The contracting authority will obtain credit appraisal on its own initiative. The Contracting Authority reserves the right to obtain the company's last Annual Financial Statements including notes, the Board's Annual Reports and Audit Reports, as well as new information of relevance to the company's fiscal figures. Tenderers can submit all documentation that they believe is relevant for assessing their financial capacity. If a tenderer has a justifiable reason (e.g. newly started company) of not submitting the documentation that the Contracting Authority has required, he can document his economic and financial capacity with any other document that the Contracting Authority deems suitable.

Criterion: Environmental management measures

Description of selection criterion: Tenderers are required to have implemented environmental management measures that ensure that the tenderer is suitable to fulfil the contract's environmental provisions. This means that the tenderer has methods for working actively and systematically to reduce negative environmental impact from activities connected to the execution of this contract. Documentation requirements: A description of the tenderer's environmental management measures. If a tenderer has certificates from independent bodies that document the environmental management system, they can be presented as documentation. Refer to the EU Scheme for Environmental Management and Environmental Audit (EMAS), other recognised environmental management systems in regulation (EF) no. 1221/2009 article 45, or equivalent, and other environmental management standards based on relevant European or international standards from accredited bodies such as ISO 14001 or equivalent.

Criterion: Measures for ensuring quality

Description of selection criterion: Tenderers shall have a relevant quality assurance system for the content of the contract. Documentation requirements: A description of the tenderer's quality assurance methods. Alternatively: Certificate for the company's quality assurance system issued by independent bodies which certify that the tenderer fulfils certain quality assurance standards, for example ISO 9001:2015.

Criterion: References on specified deliveries

Description of selection criterion: The contracting authority has several large and complex installations. Tenderers shall have good experience from the execution of comparable assignments. This means experience from assignments within the different refrigerant. and of a comparable size of what the Contracting Authority has. Documentation requirements: Tenderers shall document relevant experience through an overview of the most important deliveries carried out in the last three years. The contract value, date of delivery, the contracting authority's name and contact information, as well as a description of the assignment's extent, content and site size must be provided for each reference.

Documentation shall be submitted of 1-2 reference assignments for each of the following categories refrigeration plants: * Ammonia system * CO₂ installations * Freon system

Criterion: Security of supply

Description of selection criterion: Tenderers shall have good capacity to fulfil the contract, including delivering a duty scheme and handling call-out challenges. Documentation requirements: A description of the tenderer's average workforce in the last three years.

Including details of: * Employees with a certificate of apprenticeship * Employees apprentices * Employees in management during the last three years. * Description of the duty scheme

5.1.10. Award criteria

Criterion:

Type: Price

Description: Price

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 100

Criterion:

Type: Quality

Description: In this procurement, the environment is not weighted as an award criteria by 30%. The contracting authority has chosen to have strict minimum requirements for the environment that, according to the contracting authority's assessment, will have a better environmental effect than setting up an environment as an award criteria, see the Procurement Act §5, letter b). In this competition, it is a requirement that the tenderer commits to only use vehicles that are either zero emission vehicles (100% battery electric or hydrogen) or biogas vehicles that as a minimum fulfil Euro class 6/VI in the execution of the contract (last transport stretch/cargo mile). In addition it is a requirement that the tenderer undertakes to comply with a number of environmental requirements, which are in the standard requirement specifications for Oslo municipality (SKOK). By setting such minimum requirements, it is ensured better climate and environmental effect than by setting up award criteria connected to the environment. This is because, even with a minimum of 30 percent weighting of the environment, the price risks being decisive in the competition, and that one thus ends up without the minimum requirements that are now set for the environment.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 0
