Internet address(es):

Main address: <https://permalink.mercell.com/163783048.aspx>

Address of the buyer profile: <https://www.bergen.kommune.no/>

I.6. Main activity

Water

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

EEA 054-2021 Framework agreement for Pipe Inspections 2021-2023

Reference number: 2021/78709

II.1.2. Main CPV code

76600000 Pipeline-inspection services

II.1.3. Type of contract

Services

II.1.4. Short description

Bergen municipality c/o the Agency for Water and Sewage, is responsible for the public water and sewage network, which comprises approx. 1200 km sewage pipelines and approx. 900 water pipelines. Approx. 1% of the public sewage network is renewed per annum.

Since 1 January 2020, Bergen municipality has taken over the ownership of the part of service lines that are located in public roads. This means that the sewage network for which the municipality is responsible has increased and that many pipes have shared responsibility.

Thus, there have been higher requirements for carrying out the inspection of these "shared" pipes.

In connection with the renewal of the public pipeline network, mapping and / or condition assessment of private pipelines connected to the public network is carried out. This condition assessment of the private network is carried out with the help of pipe inspections and is the basis for this procurement.

A contract with 2 suppliers is planned for this framework agreement.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 6 000 000,00 NOK

II.2. Description

II.2.2. Additional CPV code(s)

45231300 Construction work for water and sewage pipelines

II.2.3. Place of performance

NUTS code: NO0A2 Vestland

II.2.4. Description of the procurement

Bergen municipality c/o the Agency for Water and Sewage, is responsible for the public water and sewage network, which comprises approx. 1200 km sewage pipelines and approx. 900 water pipelines. Approx. 1% of the public sewage network is renewed per annum.

Since 1 January 2020, Bergen municipality has taken over the ownership of the part of service lines that are located in public roads. This means that the sewage network for which the municipality is responsible has increased and that many pipes have shared responsibility. Thus, there have been higher requirements for carrying out the inspection of these "shared" pipes.

In connection with the renewal of the public pipeline network, mapping and / or condition assessment of private pipelines connected to the public network is carried out. This condition assessment of the private network is carried out with the help of pipe inspections and is the basis for this procurement.

A contract with 2 suppliers is planned for this framework agreement.

II.2.5. Award criteria

Quality criterion - Name: Assignment comprehension/solution description / Weighting: 50%

Price - Weighting: 50%

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no
