If more than 4 applicants fulfill the minimum requirements, cf. section III, the Contracting Authority will prequalify the 4-6 applicants who are evaluated as most qualified for the specific tendered assignment. Only these applicants will be invited to submit a tender. The selection of the applicants will be based on the relevance of the submitted references, cf. the scope stated in section II.2.4, and the extent to which the references overall demonstrate comprehensive experience with deliveries comparable to the tendered assignment regarding solution, complexity and scope.

#### **II.2.10. Information about variants**

Variants will be accepted: no

#### **II.2.11. Information about options**

Options: yes

Description of options:

Enterprises in which Energinet independent public enterprise or another enterprise in the Energinet Group during the term of the framework agreement acquire half or more than half of the capital or the assets or is authorized to exercise half or more than half of the voting rights or is entitled to manage the enterprise's affairs regardless of the official name's option to use the framework agreement.

#### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

#### **II.2.14. Additional information**

Please note that this is a negotiated procedure. With exception of mandatory parts, the Tender Documents may as a result undergo changes as part of the negotiation process.

### **Section III: Legal, economic, financial and technical information**

---

#### **III.1. Conditions for participation**

##### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

The applicant must confirm the economic ability in the ESPD part IV.B: "Economic and financial standing" with information from the latest annual report regarding the following economic indicators:

1. Equity (total equity incl. share capital, reserves, revaluation, retained earning etc.)
2. Equity ratio (equity/total assets). This must be stated with two decimals.

If the applicant is relying on the capacities of one or more other entities (e.g. a parent or sister company or a subcontractor) or the applicant is a group of economic operators (e.g. a consortium) the information for the ESPD part IV.B must also be given in a separate ESPD from each of these entities, cf. section VI.3 "Additional information". "In this context it will be sufficient that one of the entities fulfill the standards required in isolation or that the applicant, including the capacity of other entities, or a group of economic operators fulfill it jointly.

Minimum level(s) of standards possibly required:

The following applies to lot 1-8:

Concerning 1: Equity from the latest annual report must, at the time of prequalification, be at least EUR 1 Mio.

Concerning 2: Equity ratio from the latest annual report must, at the time of prequalification, be at least 10 pct.

### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

For each lot 1-8 the applicant can include the up to 3 most comparable and relevant references undertaken in the past three (3) years as part of the application for each lot that the Consultant is tendering for.

The references must be stated in the ESPD part IV.C: "Technical and professional ability".

Undertaken in the past three (3) years implies that the reference must not have been completed prior to the date reached when counting 3 years backwards from the submission date for prequalification. References older than this will not be taken into consideration.

References which have not yet been fully completed can be included as part of the application, but if this is the case, the applicant must describe the parts which have not yet been delivered, and this may affect the evaluation of the applicant, cf. section II.2.9.

The Contracting Authority recommends the Applicant to use the provided format when submitting the ESPD, but this is not mandatory.

Each reference is provided using two formats: 1) A FIXED FORMAT defined by the Contracting Authority and 2) a FREE FORMAT defined by the Applicant.

The FIXED FORMAT should include the following information:

1. Reference title
2. Client
3. Project type
4. Project scope
5. Consultant role
6. Consultant scope
7. Consultant start date
8. Consultant end date
9. Consultant contract value
10. Consultant base

The FREE FORMAT could be an A4-PDF page such as a product sheet or similar. It is required that the FREE FORMAT reference information is linked to the associated information provided in the FIXED FORMAT. If the relation between reference information provided in the mandatory FIXED FORMAT and in the FREE FORMAT is unclear, then only the FIXED FORMAT information will be subject to evaluation.

Any ambiguities and/or incomprehensibilities concerning the above information may have a negative effect on the selection of candidates, cf. section II.2.9. Please note the "description" box can contain more text than is visible. I.e. it is possible to copy paste text into the box.

If the applicant is relying on the references of one or more other entities (e.g. a parent or sister company or a subcontractor) or the applicant is a group of economic operators (e.g. a consortium) the information for the ESPD part IV.C must also be given in a separate ESPD from each of these entities and this must be signed.

The number of references should not surpass a maximum of the 3 most comparable and relevant references. If the applicant is relying on the capacity of one or more other entities (e.g. a parent or sister company or a subcontractor) or the applicant is a group of economic operators (e.g. a consortium) the maximum number of references to be submitted must still be respected and cannot exceed 3 when combined. If more than 3 references are submitted, the Contracting Authority will only consider the 3 most recent references determined by date of final delivery (in this case not yet finished references will not be included).

### **III.1.4. Objective rules and criteria for participation**

List and brief description of rules and criteria:

The applicant must submit a completed version of the ESPD.

Applicants may not be subject to the mandatory grounds for exclusion, cf. the Danish Public Procurement Act (udbudsloven) Section 135 (1-3) and 136.

Please see section VI.3 "Additional information" for further information regarding the ESPD.

The application must be submitted through EU-Supply, cf. link in section I.1 in this notification.

Applications not submitted via EU-supply or received after the deadline will not be accepted.

The Contracting Authority reserves the right to request the applicant to supplement, specify or complete the information submitted.

#### **VI.3. Additional information**

The applicant must submit a completed ESPD to apply for prequalification for this tender procedure. The ESPD for this tender can be found via EU-supply. The ESPD must be completed in EU-Supply and submitted via "My Response". A guide to the ESPD can be found on the webpage of the Competition and Consumer Authority ([www.kfst.dk](http://www.kfst.dk)) in Danish (the Contracting Authority is not responsible for the content of the guide).

Please note:

- An applicant participating on its own, but relying on the capacities of one or more other entities (e.g. a parent or sister company or a subcontractor), must ensure that the application includes the applicants own ESPD together with a separate ESPD from each of the entities it relies on with a completed part II: "Information concerning the economic operator" and part III: "Exclusion grounds" of the ESPD as well as the relevant information regarding part IV: "Selection criteria" and part V: "Reduction of the number of qualified candidates". The ESPD from each of the entities should be duly filled and signed by the entities concerned.

Further where an applicant wants to rely on the capacities of other entities, it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect, which must be submitted as part of the final documentation .

- Where groups of economic operators, including temporary associations, participate together in the procurement procedure, a complete separate ESPD for each of the participating economic operators must be submitted.

Further the final documentation must include a signed declaration by all parties of the group of economic operators (joint venture, consortium or other) stating that all economic operators assume joint and several liabilities towards the Contracting Authority for the performance of the contract as a whole.
