Tenders or requests to participate must be submitted electronically via: <https://permalink.mercell.com/190595532.aspx>**I.4.**

Type of the contracting authority

Regional or local authority

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Innovation partnership - Smart Data Stage 1 - qualification
Reference number: 2022/195

II.1.2. Main CPV code

72322000 Data management services

II.1.3. Type of contract

Services

II.1.4. Short description

Smart Data - Development of an innovative system that enables municipalities to use their data in a secure way across the municipality's different sectors in order to develop user adapted and continuous services.

Hamar Municipality, hereafter called the contracting authority, is responsible for holding this contest. For further information on the municipality and Smart Data see www.hamar.kommune.no and www.smart-data.no

Hias IKS and Hedmark IKT are included as cooperation partners in the procurement. I.e., they have participated in the mapping of needs, formulating the needs description, and professional procurement material.

The challenges and needs drafted in this notice are not unique for Hamar Municipality, but well-known for Norwegian municipalities. Suppliers of good, innovative systems that meet the needs described in the notice will therefore have a broad market in both the municipal sector in Norway and also probably internationally.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

48732000 Data security software package, 72200000 Software programming and consultancy services, 72220000 Systems and technical consultancy services, 72223000 Information technology requirements review services, 72225000 System quality assurance assessment and review services, 72230000 Custom software development services, 72310000 Data-processing services

II.2.3. Place of performance

NUTS code: NO020 Innlandet

Main site or place of performance: Hamar

II.2.4. Description of the procurement

The new technology and digitalisation that we see in today's society increases the amount of data that is gathered. Data is a valuable resource that enables the development of better services for inhabitants, increases value creation in businesses, and makes public administration more efficient.

Currently only a very few of Norwegian municipalities are able to exploit the value of its data internally. The data is of low quality and a lot of the data is locked in trade systems, and largely controlled by system providers. As regards sharing data, the municipalities have weak incentives, at the same time that the demand from external actors is low.

Smart Data will enable municipalities to exploit their data in a secure way across the municipality's different sectors in order to develop user adapted and continuous services.

The contracting authority needs a future orientated and general system for handling data that covers the complexity and breadth of the municipal service production and organisation. The system must be user friendly and not require high digital competence to use. The goal is to make it easier to use data in everyday life, at the same time that personal protection is seen to and there is compliance with the current legislation.

'We envisage that Smart Data not only makes it possible to use our data in a smart way, but that the developed system is itself smart'.

The contracting authority's more detailed description of the delivery is in annex 1 The Contracting Authority's Needs Description.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 24

This contract is subject to renewal: no

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 5
Objective criteria for choosing the limited number of candidates:

See the tender documentation, chapter 5:

Tenderers' organisational and legal standing - tax and VAT certificate - tenderers' economic and financial capacity - tenderers' environment management system - tenderers' technical and professional qualifications.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

The contracting authority has the right to take up an option to procure the system in accordance with the innovation partnership contract, annex 11.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

In order to be invited to submit a tender in the contest, interested tenderers must complete the electronic self-declaration form (ESPD) as provisional documentation of fulfilment of the qualification requirements.

Requirement: Tenderers must be registered in a company register, professional register or a trade register in the country where the tenderer is established.

Documentation: Norwegian companies: Company Registration Certificate. Foreign companies: Verification showing that the company is registered in a company register, professional register or a trade register in the country where the tenderer is established.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Tenderers must have sufficient economic and financial capacity to fulfil the contract.

Creditworthiness with no requirement for guarantees will be sufficient to meet the requirement.

Minimum level(s) of standards possibly required:

Credit rating based on the most recent accounting figures. The rating must be carried out by a credit rating company with a licence to conduct this service.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Requirement: Tenderers must have qualifications within research and development, including the development and implementation of innovative systems.

Description of up to three of the tenderer's most relevant assignments in the last three years.

The description must include a statement of the assignment value, dates and recipients (name, telephone number and e-mail address). It is the tenderer's responsibility to confirm relevance through the description. Tenderers can document experience by referring to competence and experience of the personnel they have at their disposal and can use for this assignment. This applies even if the competence and experience was gained whilst the personnel carried out the service for another supplier.

A description per assignment of how the experience from these assignments will be used to fulfil the requirements and needs of the contracting authority in this contract. Tenderers are particularly encouraged to make their replies relevant for the description of needs in Annex 1.

Requirement: Tenderers must have sufficient capacity and competence to fulfil the contract, including multi-disciplinary competence within technology, law, and design.

A description of how the tenderer has the required capacity to fulfil the requirements in this contract, including:

An overview of the tenderer's organisation.

An overview of the average annual workforce that the tenderer has available to fulfil the intention of the contract.

An overview of the tenderer's relevant, total workforce/staffing for these types of projects (no CVs).

A list of any sub-suppliers that will be used to fulfil the contract and what they will be used for.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Innovation partnership

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.4. Information about reduction of the number of solutions or tenders during negotiation or dialogue

Recourse to staged procedure to gradually reduce the number of solutions to be discussed or tenders to be negotiated

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 22/12/2022 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

Date: 23/01/2023

IV.2.4. Languages in which tenders or requests to participate may be submitted

Norwegian

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Tender must be valid until: 30/01/2023

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic invoicing will be accepted

Electronic payment will be used

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Østre Innlandet Tingrett

Postal address: Postboks 4450

Town: Hamar

Postal code: 2326

Country: Norway

Telephone: +47 61991250

VI.5. Date of dispatch of this notice

23/11/2022
