Terms of submission:

Electronic submission: Not allowed

Justification for why electronic submission is not possible: Tools, devices, or file formats not generally available

Description: In accordance with Article 14(2), 1° of the Law of 17 June 2016 on public procurement, the contracting authority does not require the use of electronic means of communication referred to in Article 14(7) of the same Law. The procedure is implemented in a partner country where access to information technology tools, telecommunications infrastructure and stable, continuous internet connectivity cannot be guaranteed equally for all economic operators that may be interested in the contract. In such circumstances, requiring the exclusive use of electronic means of communication could create unequal treatment between economic operators, limit access to the procurement procedure for certain potential candidates and, consequently, restrict competition. The use of the exception provided for under Article 14(2), 1° is therefore justified in order to ensure compliance with the principles of equal treatment, non-discrimination and effective competition governing public procurement procedures.
