2.1. Procedure

Title: Winter maintenance of municipal roads and pedestrian and cycle paths

Description: Giske Municipality invites tenderers to participate in an open tender procedure for winter maintenance of municipal roads, pedestrian and cycle paths, pavements and other designated areas. The procurement is divided into six separate lots: T1, T3, T4, T5, T6 and T7. Tenderers may submit tenders for one, several or all lots. One contract will be awarded for each lot. The services comprise standby arrangements, snow ploughing and associated snow and ice clearance. Lot T6 also includes gritting. The contracts will apply for four winter seasons, commencing as soon as possible after completion of the procurement procedure and contract signature. The planned end date is 15 April 2030. Tenderers may be awarded several or all lots, provided that they document sufficient capacity. Subcontractors are permitted on the terms set out in the procurement documents.

5.1.10. Award criteria

Criterion:

Type: Quality

Name: Climate and environment for main frame machine

Description: Climate and environmental performance will be evaluated based on the documented emission level of the main machine to be used for the relevant lot. Environmental points will be awarded according to the following model: Zero-emission main machine: 10 points Stage V / Euro VI or an equivalent documented level: 8 points Stage IV / Euro V or an equivalent documented level: 6 points Stage IIIB / Euro IV or an equivalent documented level: 4 points Older documented emission level: 2 points Emission class not documented: 0 points Documented use of renewable fuel approved for the machine throughout the entire contract period will be awarded one additional point. The total environmental score cannot exceed 10 points. The information must be documented by a copy of or extract from the vehicle registration certificate, machine documentation, manufacturer's documentation or other verifiable documentation. The information concerning the main machine and any use of renewable fuel will be binding throughout the contract period.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 30

Criterion:

Type: Price

Name: Hourly rate

Description: Price will be evaluated based on the tendered hourly rate for a machine with an operator and the necessary equipment for winter maintenance of the relevant lot. The tendered hourly rate will be multiplied by the evaluation quantity specified for the lot. The evaluation quantity will be used solely for comparing the tenders and does not constitute a forecast, guaranteed volume of work or binding order. The fixed standby payment of NOK 250,000 excluding VAT per season is the same for all tenderers and therefore does not affect the ranking of the tenders. The lowest evaluated price will receive 10 price points. Other tenders will receive price points in accordance with the evaluation model set out in the procurement documents.

Type: Price

Name: Hourly rate

Description: Price will be evaluated based on the tendered hourly rate for a machine with an operator and the necessary equipment for winter maintenance of the relevant lot. The tendered hourly rate will be multiplied by the evaluation quantity specified for the lot. The evaluation quantity will be used solely for comparing the tenders and does not constitute a forecast, guaranteed volume of work or binding order. The fixed standby payment of NOK 250,000 excluding VAT per season is the same for all tenderers and therefore does not affect the ranking of the tenders. The lowest evaluated price will receive 10 price points. Other tenders will receive price points in accordance with the evaluation model set out in the procurement documents.
