Internet address(es):

Main address: <https://www.rogbr.no/brannvesenet>

Address of the buyer profile: <https://eu.eu-supply.com/ctm/Company/CompanyInformation/Index/306369>

I.4. Type of the contracting authority

Regional or local agency/office

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Contract award - new professional system for Rogaland Brann og Redning IKS

Reference number: 21/15226

II.1.2. Main CPV code

72000000 IT services: consulting, software development, Internet and support

II.1.3. Type of contract

Services

II.1.4. Short description

The contracting authority intends to enter into a contract with Cubit AS without holding a competition, for procurement of a professional system for inspections. The exception from competition is pursuant to the public procurements regulation, §21-5 and §13-4, and is justified on the grounds that there is only one specific supplier who can provide the service as competition is impossible due to technical reasons.

The contracting authority has assessed the exception in §13-4 in view of the contracting authority's specific situation, and has concluded that there is only one supplier who can provide the service requested by the contracting authority, and that it will be impossible for other potential suppliers to deliver due to technical reasons. Furthermore, it has been decided that potential harm to the supplier market if the procurement is carried out without a competition is less than the harm that would be caused if the procurement is divided or postponed.

For further justification see the assessment in the annex 'prior information notice - Assessment of the exception in the regulation §13-4'.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 3 000 000,00 NOK

II.2. Description

II.2.2. Additional CPV code(s)

48000000 Software package and information systems, 48100000 Industry specific software package, 7222300 Information technology services, 72227000 Software integration consultancy services, 72320000 Database services, 72416000 Application service providers, 75251110 Fire-prevention services

II.2.3. Place of performance

NUTS code: NO0A1 Rogaland

II.2.4. Description of the procurement

The procurement concerns purchase of access to a new professional system (SaaS) that will cover the contracting authority' implementation of work processes in the preventative work, environmental health and alcohol licensing inspections. This is largely carried out as different versions of inspection processes by different specialist environments. Some processes have a large variation and low volume, whilst others (such as housing inspections with approx. 80,000 objects) have volume and standardised implementation.

The tender documentation and requirement specification from previous competitions are attached to the prior information notice.

For further justification of the exception from competition, see the assessment in the attachment 'Prior information notice - Assessment of the exception in the regulation §13-4'.

II.2.5. Award criteria

Quality criterion - Name: Quality / Weighting: 70

Price - Weighting: 30

II.2.11. Information about options

Options: yes

Description of options:

Option for integration with the contracting authority's case and archive system.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14. Additional information

The publication of the contract award is based on a previous Voluntary ex ante transparency notice published on 03.11.2021 with external reference 2021-391600 and TED reference 2021 / S 215-567287.

Points 1.4 and 2.4 of this notice refer to the above-mentioned Voluntary ex ante transparency notice, as well as the attached annexes and the assessment,

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- The procurement falls outside the scope of application of the directive

Explanation:

The procurement is within the scope of the public procurement regulation, and the exception is pursuant to §21-5 and §13-4. Of the regulation.

A thorough assessment has been made of the exception in §13-4. The supplier market has been investigated, the proportionality of the exception in relation to cheap alternatives, whether it is reasonable to divide the procurement, and the time aspect of the procurement.

The supplier market is defined through two previous procurements and a recent market survey. In summary, the technical requirements are not fulfilled, which cannot be solved without significant development, which in turn cannot be done within a reasonable time scale.

The contracting authority has an objective, responsible justification for the procurement's operational model (cloud system) and time aspect, and it would not be reasonable to split up or postpone the procurement. Furthermore there is uncertainty around the contracting authority's economy and operational reliability if there is a postponement, and as to whether it would ensure competition.

For a detailed assessment, reference is made to the Voluntary ex ante transparency notice with attachments.

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2021/S 215-567287](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a prior information notice
