Country: Norway

Anywhere in the given country

5.1.3. Estimated duration

Start date: 01/06/2025

Duration end date: 31/05/2031

5.1.6. General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): no

5.1.10. Award criteria

Criterion:

Type: Quality

Name: Immaterial climate footprint and environmental impact

Description: About climate and environmental considerations According to the Public Procurement Regulations § 7-9, the contracting authority is initially obliged to weight climate and environmental considerations with a minimum of thirty percent. The obligation to set requirements or criteria for climate and environment does not apply if the procurement has a climate footprint and an environmental impact that is immaterial and this is justified in the procurement documents, cf. the Public Procurement Regulations § 7-9 fifth paragraph. According to DFØ's guidelines on climate and environmental considerations in public procurements, chapter 7, the procurement of telephony services and mobile telephony is one of 14 CPV codes that are considered to have a climate footprint and environmental impact that is immaterial in accordance with nature. "DFØ has reviewed all procurements that were carried out in 2022 registered on the 14 CPV codes that are considered to have low climate intensity. Based on this review, the types of procurements that go on and that have a typically low climate intensity have been identified. Furthermore, qualitative assessments have been made connected to other forms of environmental impact, taken from the concept list in chapter 2. The result of these assessments is the list below. Archive and documentation services User controlled personal assistance (BPA) Legal services and lawyer services Consultancy and analysis services Media monitoring and analysis. Emergency and Security Services Text and content services Telephony services and mobile telephony Services in connection with training and education. Labour market training (AMO) and alternative training arena Digital and technological courses Vehicles and transport related courses Courses for specific target groups (e.g. refugees, youth) Safety and HSE training. Management development and project

management. Security and HSE training Language and integration courses Vocational and vocational training The contracting authority will use the exclusion provisions in the procurement regulations §7-9 fifth section on the basis that telephony and data traffic itself has an immaterial climate footprint and environmental impact as it mainly involves the use of the existing mobile network and infrastructure. It can be argued that there will be no insignificant energy consumption connected to the services to be procured, but this is difficult to measure. Measures that can be put in place to reduce the climate footprint are to use renewable energy, as well as a focus on optimising energy efficiency. The challenge here lies in linking energy consumption specifically to the services that the Contracting Authority procures. The contracting authority is obliged to follow-up all award criteria in the competition and sees that it can be challenging for suppliers to specifically connect energy use to the contracting authority's services. This procurement will not lead to any significant changes in the existing infrastructure or patterns of use, and will therefore not increase the climate and environmental impact. Based on the above, it is considered that this procurement has, in its nature, an immaterial climate footprint and environmental impact, and thus fulfils the terms for exemptions in accordance with the procurement regulations § 7-9 fifth paragraph.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 0

Criterion:

Type: Cost

Name: Price

Description: Tenderers shall enclose a completed Annex 5 Annex 5.1 Price Form.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 40

Criterion:

Type: Quality

Name: Quality

Description: The quality criteria will be evaluated based on the award criteria 1.15.2.1 up to and including 1.15.2.5. The award criteria will be evaluated based on the tenderer's description of the evaluation requirements in annex 1 annex 1.1 requirement specifications.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 60

5.1.15. Techniques

Framework agreement:

Framework agreement, without reopening of competition

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: Buskerud tingrett

Information about review deadlines: The waiting period, in accordance with the public procurement regulations, is set to 21.08.2025, 23:59.

Organisation signing the contract: Anskaffelser i Akershus, Buskerud og Østfold KO

6. Results

Maximum value of the framework agreements in this notice: 100 000 000,00 NOK

Approximate value of the framework agreements

:

100 000 000,00

NOK

6.1. Result lot identifier: LOT-0000

Winner selection status: At least one winner was chosen.

Framework agreement:

Maximum value of the framework agreement: 200 000 000,00 NOK

Re-estimated value of the framework agreement: 100 000 000,00 NOK

6.1.2. Information about winners

Winner:

Official name: TELIA NORGE AS

Tender:

Tender identifier: Telefoni- og datatrafikk - ANSKA

Identifier of lot or group of lots: LOT-0000

Subcontracting: No

Contract information:

Identifier of the contract: 2024/17073

Title: Competition terms part III-TELIA NORGE AS

Date on which the winner was chosen: 11/08/2025

Date of the conclusion of the contract: 06/10/2025

Organisation signing the contract: Anskaffelser i Akershus, Buskerud og Østfold KO

6.1.3. Non-winning tenderers

Non-winning tenderers

:

Official name: Lyse Tele AS

Subcontracting: No

Non-winning tenderers

:

Official name: UNIFON AS

Subcontracting: No

Non-winning tenderers

:

Official name: Telenor Norge AS

Subcontracting: No

6.1.4. Statistical information

Received tenders or requests to participate:

Type of received submissions: Tenders

Number of tenders or requests to participate received: 4
