General public services

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

Madlaveien - Hannasdalsgata. Replacement and clearing of water and sewage systems using a "trenchless" method.

Reference number: 23/27201

II.1.2. Main CPV code

45231300 Construction work for water and sewage pipelines

II.1.3. Type of contract

Works

II.1.4. Short description

Through this contest, the Stavanger municipality, c/o BMU Anleggsprosjekter, would like to enter into a contract for the replacement and clearing of water and sewage systems using a

"trenchless" method. The water and sewage pipes that will be renewed are located in Madlaveien, Hannasdalsgata and side streets. A street with priority for cycles will also be constructed in Hannasdalsgata.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 85 000 000,00 NOK

II.2. Description

II.2.2. Additional CPV code(s)

45233300 Foundation work for highways, roads, streets and footpaths

II.2.3. Place of performance

NUTS code: NO0A1 Rogaland

II.2.4. Description of the procurement

Existing sewage and surface water pipes and service pipes will be renovated with sliplining in Madlaveien, Hannasdalsgata and side streets.

Existing runoff drains will also be renovated. As a general rule, the pipes are to be renovated with sliplining, but on some stretches with poor conditions/collapses, spot excavation may be necessary to repair the pipe before it can be renovated via sliplining.

The water pipes in the same area are being renovated by drawing in tightly connected PE pipes. Existing manholes will be removed and most will be replaced with new underground valves. 2 manholes are designed as ordinary descent manholes where the drainage of the manhole is routed via a new surface water manhole before discharge to the AF pipe.

The stretch in Hannasdalsgata is part of the main routes Madlaruta (cycle route 3) and Inner Ring (cycle route 10), and runs from Ivar Aasens vei to the connection point to the main cycle path. There are currently few facilities for cyclists. A road with priority for cycles with pavement on one side will be established in Hannasdalsgata, and a cycle path with pavement on one side in the current foot and cycle path. Some of the intersections will be raised to reduce the speed of cars on intersecting streets.

II.2.5. Award criteria

Price

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2023/S 129-408498](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a prior information notice

Section V: Award of contract

Title:

Madlaveien - Hannasdalsgata. Replacement and clearing of water and sewage systems using a "trenchless" method.

A contract/lot is awarded: yes

V.2. Award of contract
