The contract involves joint procurement

I.4. Type of the contracting authority

Regional or local authority

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

eLock - prequalification

Reference number: 2022/31643

II.1.2. Main CPV code

44500000 Tools, locks, keys, hinges, fasteners, chain and springs

II.1.3. Type of contract

Supplies

II.1.4. Short description

Trondheim Municipality, hereafter called the contracting authority and/or contracting authority, invites tenderers to a contest with negotiations for an electronic lock system (eLock).

The system can consist of different types of equipment, but the main system must not consist of using a key box.

A framework agreement will be signed for the offered equipment, and a SSA-L contract for the delivery of an administration system. These contracts are to be seen as a whole, but they will have separate provisions on the duration. This means that the contract for the administration system can end at a different time than the framework agreement for the procurement of equipment, for example, if the contracting authority enters into a new contact for equipment with another supplier with a different administration system, but at the same time would like to use the equipment delivered in this contract for its lifetime.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 50 000 000,00 NOK

II.2. Description

II.2.2. Additional CPV code(s)

42961100 Access control system, 44520000 Locks, keys and hinges, 44521000

Miscellaneous padlocks and locks, 44521110 Door locks, 44521120 Electronic security lock, 44521130 Enhanced security lock, 44522000 Clasps, lock parts and keys, 44522400 Parts of locks, 44523000 Hinges, mountings and fittings, 48000000 Software package and information systems, 48514000 Remote access software package, 85100000 Health services, 85140000 Miscellaneous health services, 85323000 Community health services, 98395000 Locksmith services

II.2.3. Place of performance

NUTS code: NO060 Trøndelag

II.2.4. Description of the procurement

eLock will be used at persons living at home who receive health and care services, currently approx. 6000 patients. The system must include both eLock units that will be installed by the different entrance doors of patients, and an administration system that the eLocks are connected to and that can be used for, amongst other things, access control. The system must also include the accompanying infrastructure and equipment such as an app for mobiles, electronic key, key updaters, etc.

At first the system will be used by the safety patrol, home care service, and food distribution service in Trondheim Municipality. In time it is expected that the system will be used by more municipal actors that provide services to persons living at home, for example, the home help service, the physiotherapy service, occupational health services, etc. Trondheim Renholdsverk (TRV) has an option to use the contract, as the doors they use are also used by Trondheim Municipality. It is therefore necessary that the system can be scaled and further developed so that more units can have access to the same door.

In Trondheim Municipality there will be a need for interaction and integration with other computer systems, e.g., access control via Azure AD and interaction with Velferdsteknologisk Knutepunkt (VKP), Helseplattformene (electronic patient journal), Locus Care Alarm (including Locus Mobile on tablet) and Rover (mobile user platform for Helseplattformene). The safety patrol currently use Locus Care Alarm, Locus Mobile and Rover.

If the system is to be used from employees' mobiles, tablets, etc., it must be coordinated with the IT system that approves, administers, and distributes all software that is used on such devices. Both the safety patrol, home care service, and food distribution service use joint mobiles (not personal mobiles).

Upon implementation, the tenderer must assemble and install the equipment at approx. 6000 patients in the municipality. After the implementation (in the framework agreement period), new eLock units will be procured via the municipality's e-commerce system as ordinary call-offs under the framework agreement. The tenderer must then offer the procurement of eLock units both with and without assembly/installation.

See the tender documentation with annexes, as well as information in the Mercell portal for further details, including the table with contest information that includes, amongst other things, the requirements specification, price sheet, criteria, contracts, and other available annexes.

II.2.5. Award criteria

Quality criterion - Name: Quality and ability / Weighting: 50 %

Quality criterion - Name: Environment / Weighting: 20%

Quality criterion - Name: Environment - Transport / Weighting: 10 %

Price - Weighting: 20%

II.2.11. Information about options

Options: yes

Description of options:

Option for Trondheim Renholdsverk to enter the contract. See the tender documentation for further details.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Competitive procedure with negotiation

The procurement involves the establishment of a framework agreement

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2023/S 045-131232](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a prior information notice

Section V: Award of contract

Title:

eLocks - tender phase

A contract/lot is awarded: yes

V.2. Award of contract

V.2.1. Date of conclusion of the contract

09/11/2023

V.2.2. Information about tenders

Number of tenders received: 4

Number of tenders received from SMEs: 0

Number of tenders received from tenderers from other EU Member States: 4

Number of tenders received from tenderers from non-EU Member States: 0

Number of tenders received by electronic means: 4

The contract has been awarded to a group of economic operators: no

V.2.3. Name and address of the contractor

Official name: Atea AS (Hovedenhet)

Postal address: Karvesvingen 5

Town: OSLO

NUTS code: NO060 Trøndelag

Postal code: 0579

Country: Norway

Telephone: +47 22095000

Fax: +47 22095001

Internet address: <http://www.atea.no/>

The contractor is an SME: no

V.2.4. Information on value of the contract/lot

Total value of the contract/lot: 50 000 000,00 NOK

V.2.5. Information about subcontracting

Section VI: Complementary information

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Trøndelag tingrett

Postal address: Postboks 2317, Torgarden

Town: TRONDHEIM

Postal code: 7004

Country: Norway

VI.5. Date of dispatch of this notice

13/11/2023
