---

### IV.1. Description

#### IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- Extreme urgency brought about by events unforeseeable for the contracting entity and in accordance with the strict conditions stated in the directive

Explanation:

The current creosoted wood poles framework in place since mid-2019 has two current suppliers. Recently both suppliers have confirmed to ESB Networks that due to ongoing supply chain difficulties they are unable to deliver the quantities requested for deliveries in 2023. Analysis of the impact of this shortfall has indicated that this may result in temporary suspensions / slowdowns in some of our major PR5 programs and New Business for some months and a risk that contractors would seek alternative work outside ESB in the interim and be unavailable to complete these work programs when supplies are eventually received.
