2.1. Procedure

Title: Acquisition of open circuit scuba diver sets for the Royal Danish Navy

Description: DALO is acquiring new Open Circuit SCUBA diver sets for use in the Royal Danish Navy. The Naval Divers are currently using the Divator from Interspiro, which is at the end of its lifespan. DALO is therefore looking for a similar and updated version that meets the operational demands. The SCUBA-set is expected to include the following: • Cylinders • Compensation Weight • Buoyancy control device • Harness • Full face mask and/or mouthpiece • 1st stage with hoses • Wired communication • Optional Dive Computer supporting ZHL16 Furthermore it is a requirement that the equipment can be delivered in a lightweight surface supplied version. DALO is looking to acquire around 350 sets total. DALO is looking to acquire Spare Parts to maintain the equipment. DALO is looking to acquire the possibility to get the equipment maintained by the Supplier. The equipment shall be designed for the various operations that the Navy Divers do, such as: • Evidence gathering in harsh and dirty conditions, such as bogs and sewers. • Ammunition clearance • Clearance and inspection operations in harbors • Search and Rescue operations • Various tasks with heavy workload It is important that the equipment is as lightweight as possible on land, and that it has an easily detachable compensation weight on or around the cylinders, designed in a way that doesn't interfere with their trim when diving. This compensation weight is not to be confused with weight pockets.

Internal identifier: 585901b4-7636-427e-8a33-2b6e7a8af93c

2.1.1. Purpose

Main nature of the contract: Supplies

Additional nature of the contract: Services

Main classification (cpv): 37412200 Scuba and snorkelling gear

Additional classification (cpv): 37412210 Buoyancy compensators, 37412250 Masks, fins or snorkels

2.1.2. Place of performance

Country subdivision (NUTS): Sydjylland (DK032)

Country: Denmark

2.1.4. General information

Additional information: DALO has prepared a range of questions in this Request for Information (RFI), which DALO would like to gain information on. The RFI document can be obtained from the contracting authority's tender platform ("www.ethics.dk") at "Request for information". DALO encourages the market to reply to this RFI and to submit any information, product presentations and/or catalogues that might be relevant. In continuation of this Request for Information DALO might arrange meetings or contact you for further information, if this is found relevant. DALO emphasizes that it will not influence your participation in a possible future tender, should you decline to participate or only partly fill out the RFI.
