2. Procedure

2.1. Procedure

Title: Lumenhallinnan ratkaisujen DPS (Laite- ja tavarahankinnat)

Description: Helsingin kaupungin kaupunkiympäristön toimiala perustaa dynaamisen hankintajärjestelmän, jonka sisällä tullaan kilpailuttamaan lumenhallinnan ratkaisujen laite- ja tavarahankintoja. Dynaaminen hankintajärjestelmä on voimassa vuoden 2033 loppuun saakka, ellei hankintayksikkö lyhennä tai pidennä dynaamisen hankintajärjestelmän kestoja. Dynaamisen hankintajärjestelmän keston aikana kaikki kiinnostuneet ehdokkaat voivat tehdä siihen osallistumishakemuksen. Dynaamisen hankintajärjestelmän toiminta ja kohde on

kuvattu tarkemmin osallistumispyynnössä ja sen liitteissä. Alustavan arvion mukaan dynaamisen hankintajärjestelmän sisällä toteutetaan kymmeniä hankintoja tulevien vuosien aikana. Hankintojen kokonaisarvo on koko kokonaispalveluhankintojen DPS:n voimassaolon aikana yhteensä arviolta 19 500 000 euroa. Dynaamisella hankintajärjestelmällä varaudutaan tulevien vuosien hankintatarpeisiin, joita toteutetaan tavoitteiden saavuttamiseksi riittävä määrä. Kyseessä on arvio, eikä tilaaja sitoudu mihinkään hankintamääriin. Hankintojen määrä voi olla merkittävästi arvioitua pienempi, mikäli lumenhallinnan kokonaisuuden tavoitteet täyttyvät muilla keinoin. IN ENGLISH The City of Helsinki Urban Environment Division will establish a dynamic purchasing system within which Equipment and Goods Procurements for snow management solutions will be tendered. The dynamic purchasing system will remain valid until the end of 2033, unless the contracting entity shortens or extends the duration of the system. During the duration of the dynamic purchasing system, all interested candidates may submit a request for participation. The operation and scope of the dynamic purchasing system are described in more detail in the invitation to participate and its attachments. According to the preliminary estimate, dozens of procurements will be carried out within the dynamic purchasing system over the coming years. The total value of the procurements is estimated to be 19 500 000 EUR during the entire duration of the DPS for comprehensive service procurements. The dynamic purchasing system is designed to address procurement needs in the coming years, with a sufficient amount to achieve the objectives. This is an estimate, and the contracting authority is not committed to any specific procurement quantities. The number of procurements may be significantly lower than estimated if the objectives of the snow management system are met through other means.

Procedure identifier: fcd9f357-20e8-424f-8d93-688d33019723

Internal identifier: HEL 2025-001013

Type of procedure: Restricted

The procedure is accelerated: no

2.1.1. Purpose

Main nature of the contract: Supplies

Main classification (cpv): 44000000 Construction structures and materials; auxiliary products to construction (except electric apparatus)

Additional classification (cpv): 31520000 Lamps and light fittings, 42400000 Lifting and handling equipment and parts, 42664000 Fusion equipment, 42900000 Miscellaneous general and special-purpose machinery, 43310000 Civil engineering machinery, 44100000

Construction materials and associated items, 44160000 Pipeline, piping, pipes, casing, tubing and related items, 44161200 Water mains, 44163110 Drainage pipes, 44165000 Hoses, risers and sleeves, 48000000 Software package and information systems, 90712000 Environmental planning

2.1.2. Place of performance

Country subdivision (NUTS): Helsinki-Uusimaa (FI1B1)

Country: Finland

2.1.4. General information

Legal basis:

Directive 2014/24/EU

2.1.6. Grounds for exclusion

Sources of grounds for exclusion: Procurement Document
