2. Procedure

2.1. Procedure

Title: Confocal Microscope

Description: The objective of this Procurement Procedure is for Radboud University Medical Center (Radboudumc) to select and contract a single Contractor for the supply, installation, commissioning, training, and maintenance of a Confocal Microscope System for use by RTC Light Microscopy. Through this procurement, Radboudumc intends to expand its existing microscopy infrastructure with a user-friendly and future-proof system capable of delivering rapid, high-resolution three-dimensional (3D) imaging. The intended system shall support the current and future research needs of Radboudumc and contribute to maintaining a state-of-the-art microscopy facility. The microscope system will be installed as a shared research facility within RTC Light Microscopy and will be centrally managed by the UMC. Following installation, commissioning, and the completion of the required user training, the system will be made available to authorised and qualified Radboudumc staff and researchers. The Contracting Authority seeks a reliable and sustainable solution that combines high imaging performance with ease of use, operational continuity, and long-term support throughout the lifecycle of the system.
