NUTS code: NO0A1 Rogaland

II.2.4. Description of the procurement

The contracting authority needs to enter into a framework agreement based on NS 8402 for various consultancy services relating to water and sewage.

Call-offs will mainly be related to periodical needs for extra capacity. sometimes related to needs for assistance within disciplines for which the municipality does not have internal resources, or has very limited capacity.

It is estimated that assistance will be needed with the following:

- General consultancy within water and sewage, water and sewage operations, separation and similar.

- Hydrological modelling of surface water and the water/sewage network and consultancy within technical watercourse management.
- Environmental assessments, including taking samples and analyses.
- Preparation of climate calculations related to the Contracting Authority's activities.
- Project competence in relation to the preparation of the following:
 - o Draft projects.
 - o Preliminary projects.
 Detailed engineering design and technical descriptions (complete technical plans).
 - o Simple drawings and functional descriptions for turnkey contracts.
 - o HSE plans.
 - o Application for a framework permit and start-up permit, as well as other types of applications associated with measures/projects.
- Preparation of road and zoning plans.
- Project planning for the establishment/alteration/renovation of pump stations, elevated basins, valve chambers and other technical installations, including scanning and 3D modelling of facilities.
- Geotechnical competence, including geotechnical surveys with rigs.
- Competence in automation and automation systems, including programming, related to technical installations/pump stations or similar.
- Planning and engineering design of construction projects that the municipality carries out on its own, as well as various/ad-hoc engineering assistance.
