2. Procedure

2.1. Procedure

Title: A new tender notice - Products and services for the production of standardised brands for locations and equipment in Helse Sør-Øst (Helse Sør-Øst)
Description: The aim of the procurement is to establish a framework agreement for the delivery of equipment, consumables and production services for the production of standardised brands for locations and equipment in Helse SørØst. The procurement shall support the introduction and use of uniform physical and digital identification of locations and equipment based on international GS1 standards. The locations shall be able to be identified by using GS1 GLN and equipment shall be able to be identified by using GS1 GIAI, in the form of GS1 Digital Link and other standardised GS1 syntaxes. Through the use of international standards, the brands shall be able to be used by digital systems in Helse Sør-Øst, for example systems for Facility Management (FM)/eiendomsdrift, clinical logistics, medical engineering, ERP, etc. The procurement shall result in: - Standardised brand types for locations and equipment - Support for more information carriers on brands - Support for local production of brands - Support for production of larger volumes of brands such as external services - Standardised production basis - Secure handling of business critical information.
Procedure identifier: 725f7ac4-4e46-4d0b-bb62-665083577fee
Type of procedure: Competitive dialogue

Title: New tender notice - The qualification phase - Products and services for the production of standardised labels for locations and equipment in The South Eastern Regional Health Authority.
Description: The aim of the procurement is to establish a framework agreement for the delivery of equipment, consumables and production services for the production of standardised brands for locations and equipment in Helse SørØst. The procurement shall support the introduction and use of uniform physical and digital identification of locations and equipment based on international GS1 standards. The locations shall be able to be identified by using GS1 GLN and equipment shall be able to be identified by using GS1 GIAI, in the form of GS1 Digital Link and other standardised GS1 syntaxes. Through the use of international standards, the brands shall be able to be used by digital systems in Helse Sør-Øst, for example systems for Facility Management (FM)/eiendomsdrift, clinical logistics, medical engineering, ERP, etc. The procurement shall result in: - Standardised brand types for locations and equipment - Support for more information carriers on brands - Support for local production of brands - Support for production of larger volumes of brands such as external services - Standardised production basis - Secure handling of business critical information Procurement includes systems for both local production of brands in health companies, and production of large volumes of brands. The system for local production can include production equipment, necessary software and/or integration components, consumables, equipment for encoding/programming NFC and UHF RFID, training, support, maintenance and documentation. The contracting authority will, together with the chosen supplier, establish a set of standardised brand types that will be used for the production of labels for locations and equipment. A tag type is a documented specification that specifies how a brand should be designed and produced.
