Section II: Object

II.1. Scope of the procurement

II.1.1. Title

E18/E39 Gartnerløkka – Kolsdalen. Main Contract

Reference number: 22/49377

II.1.2. Main CPV code

45000000 Construction work

II.1.3. Type of contract

Works

II.1.4. Short description

The contract work includes engineering design services for and the construction of a new approx. 1.4 km 4-lane E18/E39 Gartnerløkka – Kolsdalen, with the accompanying road systems and area use in accordance with the attached development plan.

The main work consists of building constructions, roads, and green installations, electrical installations, technical traffic equipment, alterations to technical infrastructure, road, railway, and harbour installations, as well as completion and commissioning. The existing roads, railway track, and constructions are to be demolished.

Emphasis is put on the fact that the project will be carried out close to an urban area with constricted conditions.

The contract must be carried out with model based engineering design services.

The traffic on the E18/E39 in the area by Duekniben is approx. 40,000 vehicles a day (ADT), with approx. 10% heavy traffic. Traffic flow during the day and week is characterised by rush hour traffic and ferry traffic.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 2 754 916 613,00 NOK

II.2. Description

II.2.2. Additional CPV code(s)

45000000 Construction work

II.2.3. Place of performance

NUTS code: NO092 Agder

Main site or place of performance: Route code/county 3A.

II.2.4. Description of the procurement

The contract work includes engineering design services for and the construction of a new approx. 1.4 km 4-lane E18/E39 Gartnerløkka – Kolsdalen, with the accompanying road systems and area use in accordance with the attached development plan.

The main work consists of building constructions, roads, and green installations, electrical installations, technical traffic equipment, alterations to technical infrastructure, road, railway, and harbour installations, as well as completion and commissioning. The existing roads, railway track, and constructions are to be demolished.

Emphasis is put on the fact that the project will be carried out close to an urban area with constricted conditions.

The contract must be carried out with model based engineering design services.

The traffic on the E18/E39 in the area by Duekniben is approx. 40,000 vehicles a day (ADT), with approx. 10% heavy traffic. Traffic flow during the day and week is characterised by rush hour traffic and ferry traffic.
