2. Procedure

2.1. Procedure

Title: Dual Platform for Glucose & Ketone Testing Equipment and Associated Consumables
Description: HSE Procurement intends to purchase a dual platform testing for Glucose & Ketone Equipment and Associated Consumable Nationally. The clinical requirement for this equipment is for a dual platform. The combined meter is capable of measuring both glucose and ketone levels to enable rapid and accurate assessment of diabetic ketoacidosis (DKA) and other metabolic disorders. This is particularly important in emergency, critical care, and paediatric settings, where rapid assessment is crucial. Monitoring both glucose and ketones on one device minimises errors due to using separate meters.

6. Results

Direct award

:

Justification for direct award: The contract can be provided only by a particular economic operator because of an absence of competition for technical reasons

Other justification: The clinical requirement for this equipment is for a dual platform. The combined meter is capable of measuring both glucose and ketone levels to enable rapid and accurate assessment of diabetic ketoacidosis (DKA) and other metabolic disorders. This is particularly important in emergency, critical care, and paediatric settings, where rapid assessment is crucial. Monitoring both glucose and ketones on one device minimises errors due to using separate meters.
